

# Why Innovative Medical Systems?

*In the hospital...we make it all work together*

IMS is an experienced systems integrator specializing in complex hardware and software hospital installations before, during and after the sale. Systems that require multi-departmental “buy in” and after sale support. From our comprehensive CAD drawings, detailed designs, to the consultative approach, we ask questions, and challenge traditional thinking. We don’t fit a square peg in a round hole just to earn your business. We want to be the right fit from the start, for the long run.

## Explore Our Solutions

### Real-Time Location Systems (RTLS)

A network of hardware (tags and monitors) paired with state of the art software to automatically deliver real time location insights, contextual awareness and operational intelligence within a building or contained area.

### Patient Security

Keeping patients safe is something we take seriously and have been protecting patients since 1998. We apply advanced RFID and electronic technology to provide individual protection to patients wherever it is required.

### Carts, Wall Mounts, & EMR Battery Management Systems

Ergonomically designed mobile workstations; Specialty medical and supply carts; Need to hang it on a wall, we have a solution for that; Monitor and optimize battery performance.

### Patient & OB Furniture

Furniture thoughtfully designed with ongoing clinical input to meet healthcare’s ever-changing environment. Sometimes standard configurations do not meet your requirements, we customize solutions.

### Service & Installation

The Service, Installation and Training Teams are dedicated to providing system design, project management, onsite installation and ongoing system support to Healthcare Facilities.

# Who is Innovative Medical Systems?

We are a high-tech, innovative company with “old school” principles and values. When you call us, a real person answers the phone. We believe a hand shake still means something in business.

**29 years in business, started operating in 1988**

**4.8 M patient security bracelets sold since 1997**

**300+ patient security systems installed**

## Our Advantage

The IMS team is dedicated to serving its clients with integrity and offers an unparalleled level of service before AND after the sale. Our team has a superior understanding not only of the application but how it best fits your particular use case on a clinical level. Service and Installation Team is dedicated to providing extensive proven project processes, that include gathering standardized requirements and detailing project plans to ensure success.
