

The stylish yet powerful Nomad 65 feels ultra-roomy due to a free-flowing use of onboard space. The first hybrid hull from Gulf Craft, this is an exceptional member of the fleet of long-range yachts.

Whatever mood you happen to be in – whether you want to push the throttle for speed, or simply cruise and relax – the Nomad 65 offers the greatest efficiency and economy at all speeds. With spacious above and below-deck quarters, guests can spend as much time as they like on the water far away from the stresses of everyday life.

Indeed, this yacht offers a great overall package of features – including a huge fly-bridge space for a 65-foot yacht.
