

RSQ® Solutions

Nursing Clinical Excellence

SUMMARY: | The **Nursing Clinical Excellence Program** elevates the entire nursing staff's clinical performance by strengthening the critical decision-making skills that are required to achieve the highest level of patient care. Unique to this Program, TSG delivers a 'Challenge Module' that assesses the clinician's knowledge base in advance of completing the traditional 'Learning Module'. Learners will earn CE after successfully completing each module.

BEHAVIORAL HEALTH

Behavioral Health-Related Presentations Part 1

Behavioral Health-Related Presentations Part 2

CARDIOVASCULAR

Acute Decompensated Heart Failure & Hemodynamic Monitoring

Cardiovascular Arrhythmia Interpretation

Cardiovascular Emergencies

The Many Aspects of SHOCK
