Career Transition/ Outplacement Services

to Help You Care for Your Team

Transitioning individuals from your team is never an easy decision, yet often necessary as businesses and industries evolve. Even more difficult is the task of communicating the decision to affected employees in a respectable manner, and giving them the tools to transition to a new opportunity.

Unlike traditional reduction-in-force (RIF) processes, our career transition/outplacement solutions help top management care for valued team members and maintain positive staff relations, communicate and provide your employees with the proper career training, transition assistance and learning resources.

We apply our "Consider It Done" mentality in all we do, which is especially crucial in the career transition process.

Yes, we vet candidates and help companies fill open positions.

But more than that, we **identify** the skills you need most; we **redesign** your workforce to be more efficient and effective; and we **enhance** the hiring process, delivering recruiting solutions that get the job done today with an eye toward what's needed tomorrow.

Our outplacement services cover everything from management training to employee education, saving you valuable time and resources. Additionally, an established outplacement program can help to protect your business by minimizing possible financial and legal exposure, and avoiding costly or unnecessary civil litigations.
