

MAU is *more than* a staffing and recruiting agency.  
*We are a collaborative partner.*

### Our Outsourced Services:

Allow our project team to handle your business functions, and implement the following outsourced services:

- Recruitment Process Outsourcing
- Business and Hiring Process Consulting
- Co-op Programs
- Management Functions
- Operations
- Safety Programs
- Project Ramp-ups and Ramp-downs

### *Outsourced Services*

As your strategic partner, we'll assist you with your outsourcing needs from start to finish. Together, we'll discuss logistical challenges, production goals and organizational priorities in order to design an outsourcing solution that resolves these issues.

**Yes**, we vet candidates and help companies fill open positions.  
**But more than that**, we **identify** the skills you need most; we **redesign** your workforce to be more efficient and effective; and we **enhance** the hiring process, delivering recruiting solutions that get the job done today with an eye toward what's needed tomorrow.

### *Outsourcing for* Industrial Manufacturing

Industrial manufacturing projects have many moving parts, with needs that can change throughout their lifecycle. Our onsite project management professionals will handle all aspects of your long-term or short-term project, from putting the right temporary staff in place to actually overseeing projection. Plus, our adaptable services give you peace of mind that you'll have the proper staff and processes in place if your project evolves.

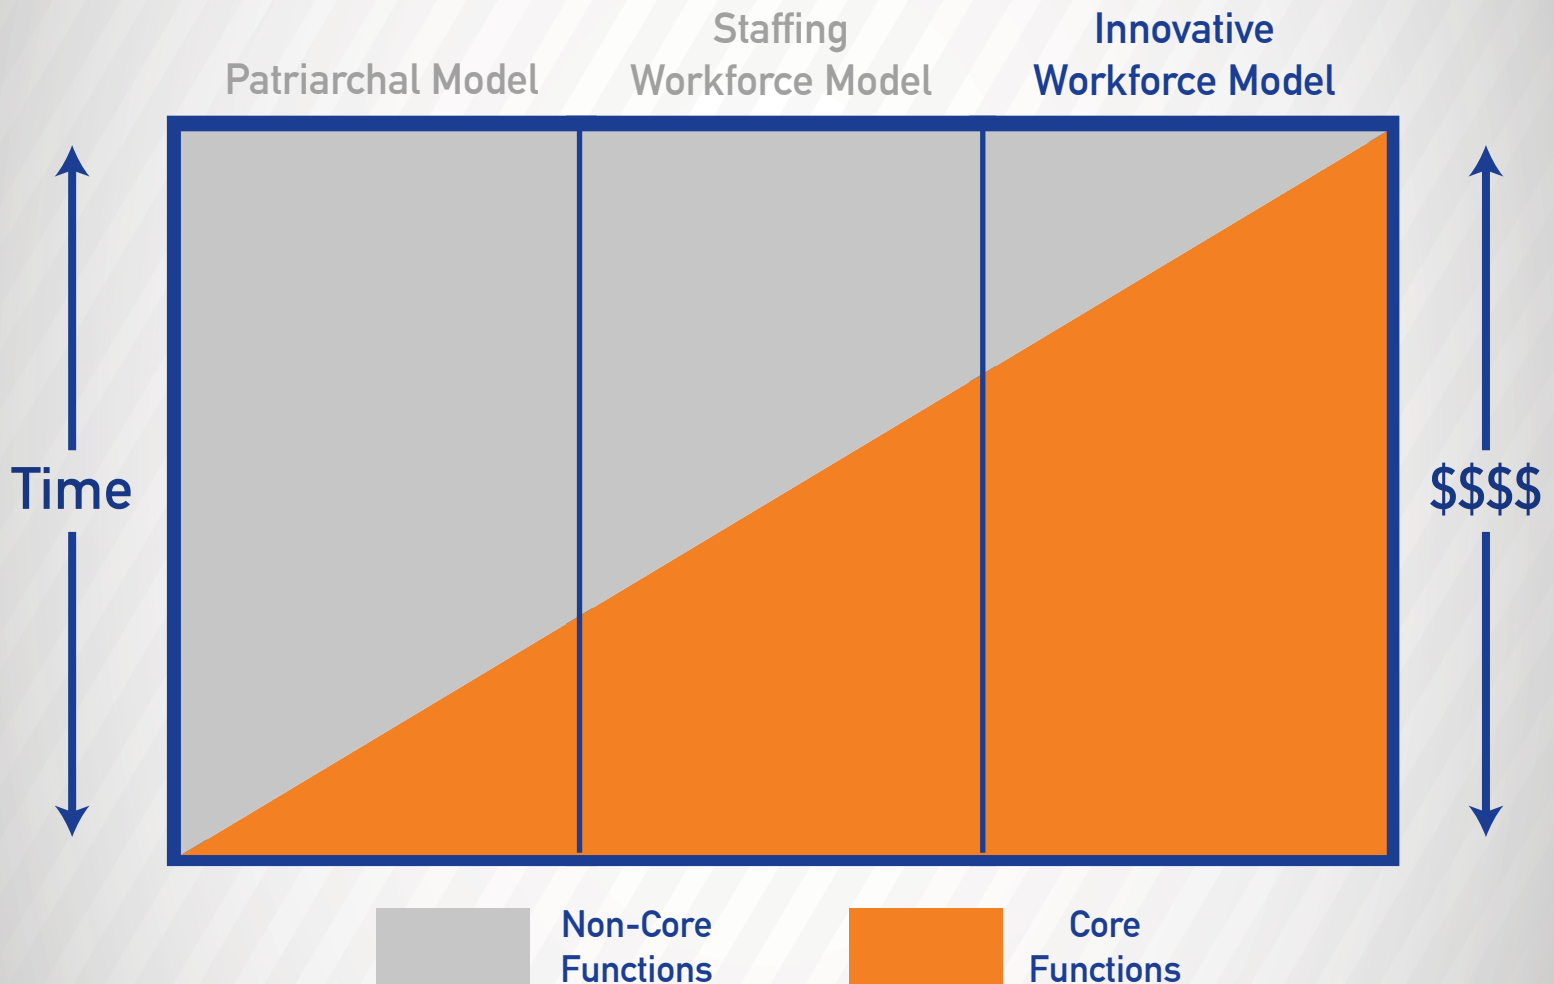

We'll work with you to define the non-core functions for your internal team, and develop a strategy that identifies the outsourced services needed, budget and timeframe. We apply our "*Consider It Done*" approach to everything we do, so you can rest assured that your services are delivered, allowing you to refocus on your core responsibilities.

# Get Lean with the

## *Innovative Workforce Model*

Staffing trends have evolved into a flexibly, fluid design that is able to accommodate each business' different staffing needs. We call this the Innovative Workforce Model.

The Innovative Workforce Model is our original, revolutionary business concept that combines temporary staffing for core and non-core functions with additional workforce solutions, such as outsourcing. We believe that customized business solutions allow you to maximize productivity, efficiency and use of resources.
