

SETTING UP AN AOL EMAIL ACCOUNT

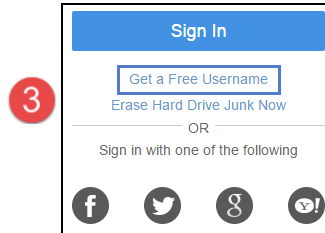

AOL (America Online) allows users to create a free email account.

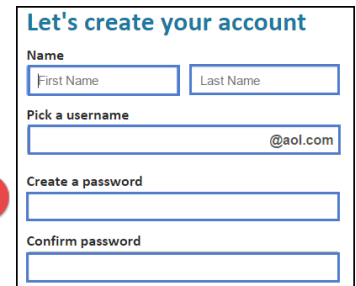

1. From your browser, go to <http://www.aol.com>
2. Click the **SIGN IN | SIGN UP** button in the upper right hand corner of the web page.

3. Click the **Get a Free Username** link.

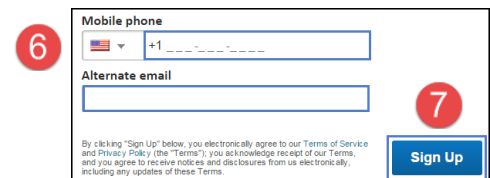

4. In the appropriate fields, fill in your first and last name, as well as choosing your username. If that name is not available, you will be prompted to change it. Try adding some numbers at the end of your name. Example: If “MarySmith” is not available, try “MarySmith4567” and see if that is available. Create a password and retype it in the **Confirm password** field.

5. Enter your **Date of Birth** information in the proper fields. Specify your **Gender** in the proper field as well. Enter your **Zip Code** and select and answer the security question in the proper fields.

6. Enter your **mobile phone** number and supply an **alternate email address** that will be used to verify your identity.

7. Click **Sign Up**. You have now successfully created your AOL Email account.
