

USING THE KINDLE APP ON YOUR PC

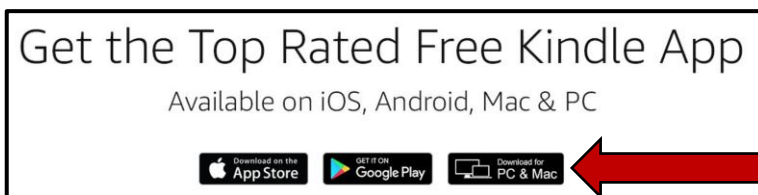

The following steps will show you how to download and use the (Free) Kindle App on your PC.

DOWNLOAD THE KINDLE APP

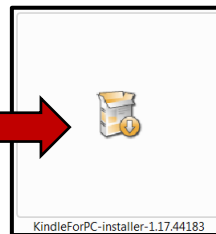

1. From your internet browser, go to:
www.amazon.com/kindleapps

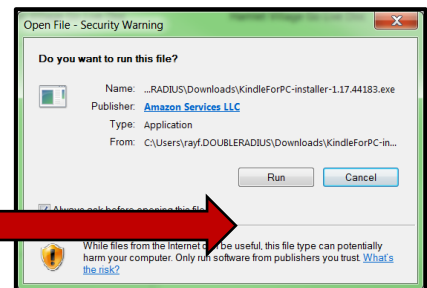

2. Click the Download for PC & Mac button.

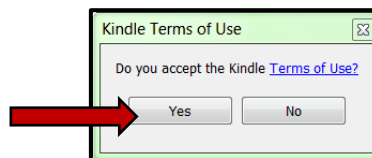

3. From your **Downloads** folder, launch the **KindleforPC-Installer** file.

4. If prompted, click **Run** to install.

5. Click **Yes** to accept the **Kindle Terms of use**.

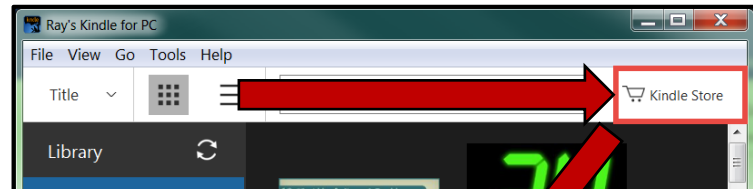

6. The Kindle app is now open on your PC.

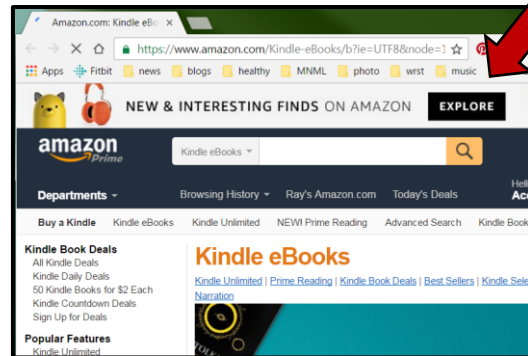

DOWNLOAD KINDLE E-BOOKS TO YOUR PC

Through your PC's Kindle app, you can go to Amazon's website to peruse and download e-books to your PC.

1. Launch the Kindle app on your PC and click the **Kindle Store** button in the upper-right corner.

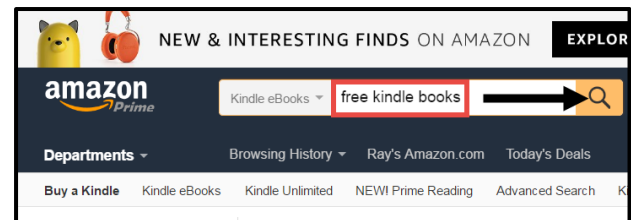

This will bring you to Amazon's website where you can search for and download e-books.

2. In the **Search** field, type in **"free kindle books"** and click the **Search** button.

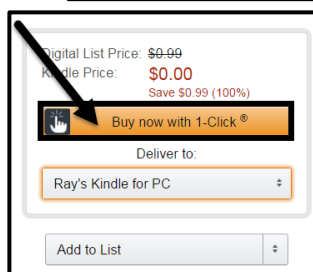

HINT: Try searching for: **"free kindle books mystery"** or **"free kindle books fiction"**, etc...

3. Click on a book you wish to download.

4. Click on **Buy now with 1-click.**

5. You will get a confirmation notice about your download. You can now go back to your Kindle app on your PC to read the book you just downloaded.

NOTE: You may also receive an email confirmation about your download.
