

PASSWORD MANAGER APP

Use this password manager app to keep track of usernames and passwords.

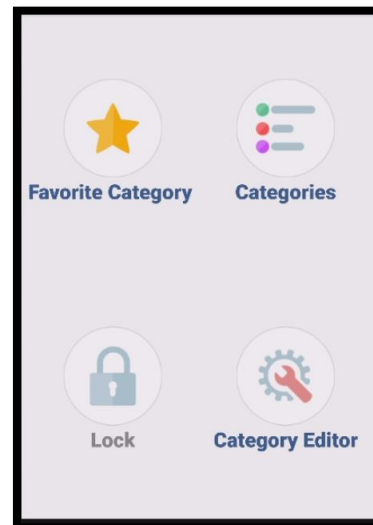

DOWNLOAD AWALLET PASSWORD MANAGER APP

1. Available in the Google Play Store and/or the iTunes App Store.

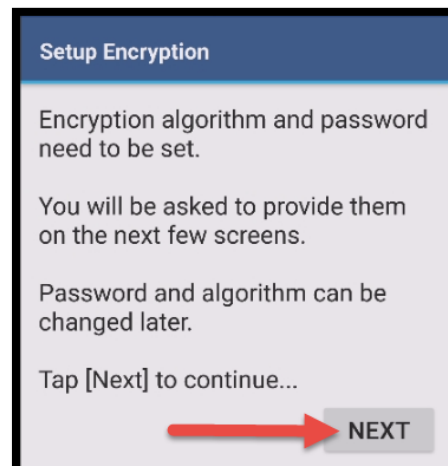

LAUNCH AWALLET PASSWORD MANAGER APP

1. The first time you open the aWallet program, you will see the following screen. Tap on any of the 4 options to setup your password for the app.

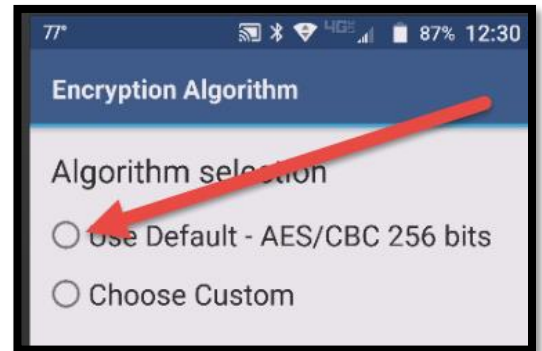

2. Tap **Next**. You need to setup your MAIN password for the app.

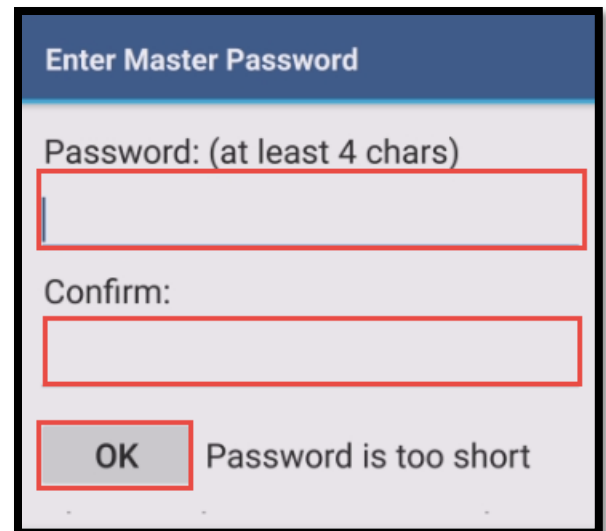

PASSWORD MANAGER APP

3. Tap in the Use Default – AES/CBC 256 bits.

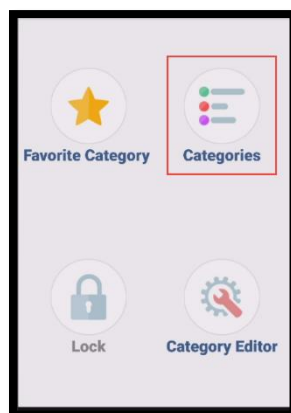

4. Create a password at least 4 characters in length. Reenter newly created password in the **Confirm** box.

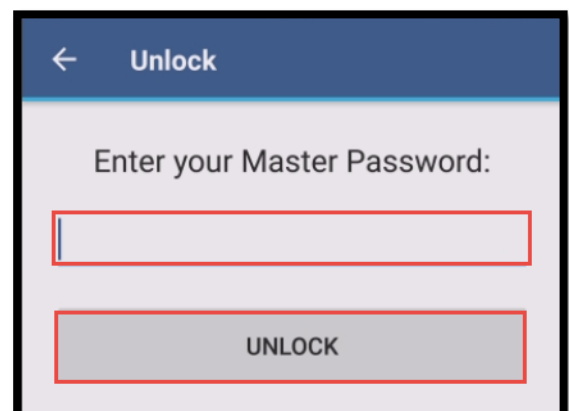

5. Click **OK**.

CREATE AN ENTRY

1. Tap **Categories**.

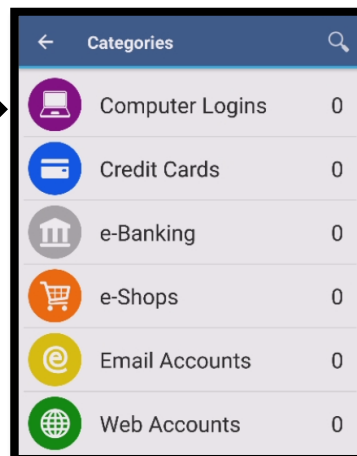

2. Enter your Master Password if prompted.
3. Tap **UNLOCK**.

PASSWORD MANAGER APP

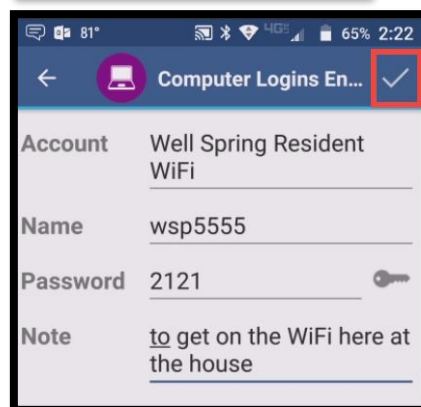

4. Notice the Categories for entries. Tap on **Computer Logins**.

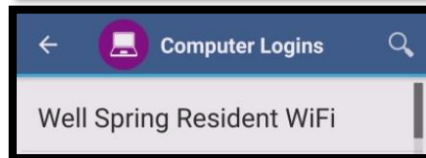

5. Press the  button to create a new entry.

6. Fill in the fields accordingly. None of the fields are required. Tap the check mark when finished.

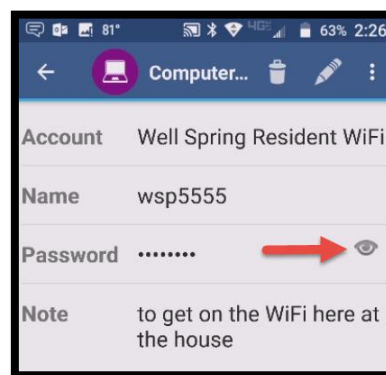

7. Your new entry now shows in the Computer Logins category.

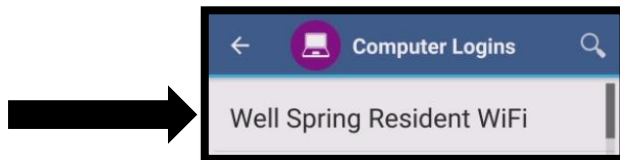

VIEW AN ENTRY

1. Tap an entry to view it. To see the hidden password, tap the **EYE** icon.

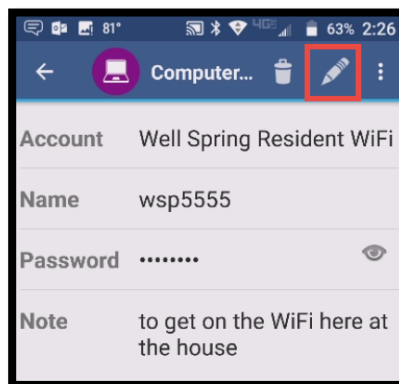

EDIT AN ENTRY

1. Tap the entry to open it.

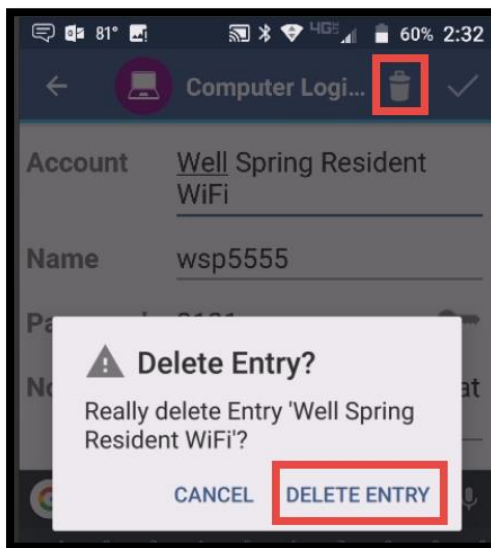

2. Tap the Pencil (Edit) icon above. Make the necessary changes and click the check mark sign to finalize.

DELETE AN ENTRY

1. Tap the entry to open it.
2. Tap the **Trash** icon.
3. Verify the deletion by tapping **Delete Entry**.
