

HOW TO USE THE MAGNIFYING GLASS FLASHLIGHT

Use your Android device and/or Kindle Fire HD device as a magnification glass, complete with flashlight.

1. From the Google Play Store or Amazon App Store, search for “**Magnifying Glass Flashlight**” and tap on “**Magnifying Glass FlashLight**” to download.

2. Launch **Magnifying Glass** on your Android/Kindle.

3. Aim your phone’s camera at what you want to magnify. Slide the magnification bar to the right to increase the zoom.
4. Tap the camera icon to take a snapshot of the screen.
5. In the free version you can zoom in up to 3X.
