HOW TO USE THE MAGNIFYING GLASS WITH LIGHT APP
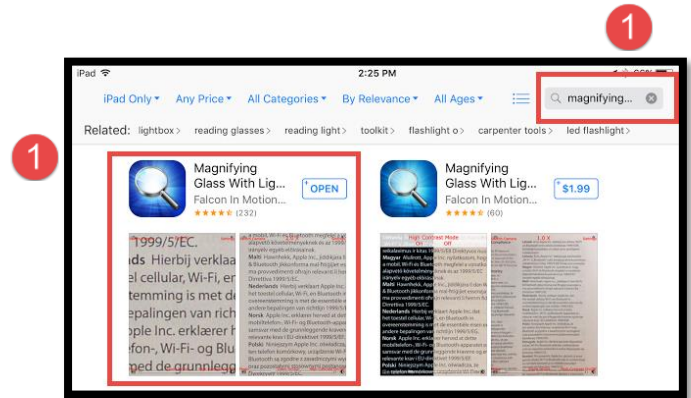

Use your iPad/iPhone as a magnification glass, complete with flashlight.

1. From the App Store, search for "**Magnifying Glass**" and tap on "**Magnifying Glass With Light**" to download.

2. Launch **Mag. Light** on your iPad/iPhone.

3. Aim the camera at what you want to magnify. Slide the magnification bar to the right to increase the zoom.

4. Tap the **Camera** icon to take a snapshot of the screen. You can access photos from your photo gallery on your iPad/iPhone.
