

USING GOOGLE MAPS

Google maps is a mapping application you can use on your computer, smartphone and/or tablet device.

LAUNCH GOOGLE MAPS:

1. From your Internet browser, type www.google.com/maps in the URL bar and press **Enter** on your keyboard.

ENTER A LOCATION:

1. Type an address in the **Search Google Maps** search box and click the **Magnifying glass** icon. Google Maps will then display the map for that location.

NOTE: Click the + or – sign to zoom IN or OUT on your map. You can use your mouse to click and drag to move the map location around.

2. To change to Satellite view, click the **Satellite** button located in the lower left corner.

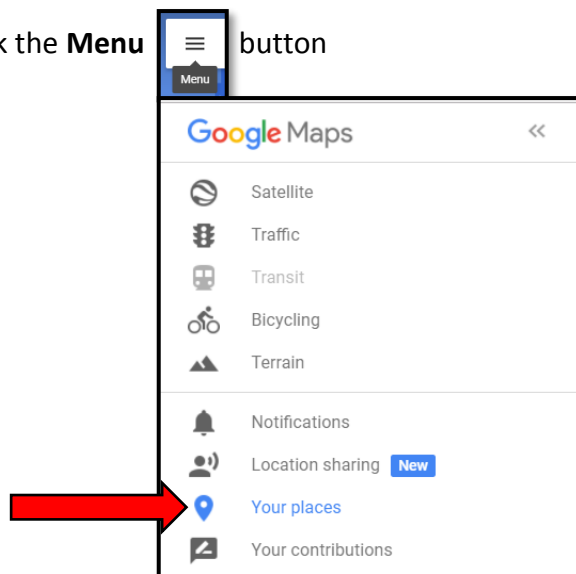

NOTE: Click the **Map** button to return to **Map** view.

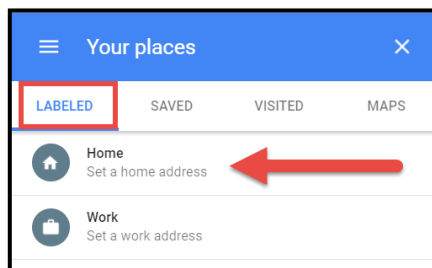

SET YOUR HOME LOCATION:

1. From the Google Maps homepage, click the **Menu** button and click on **Your places**.

2. From the **LABELED** tab, click on **Home**.

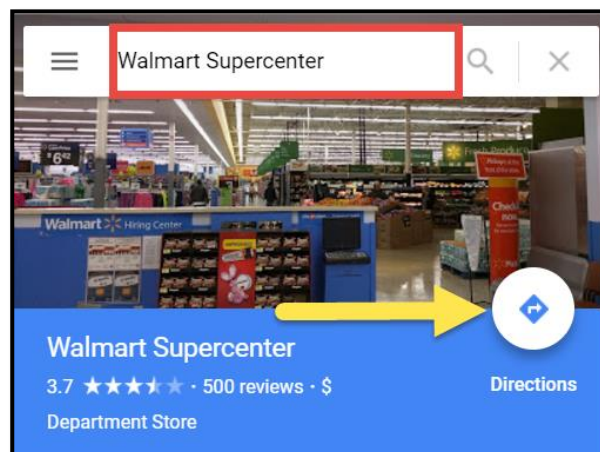

3. Type your Home address and click **Save**.

GET DIRECTIONS TO A LOCATION:

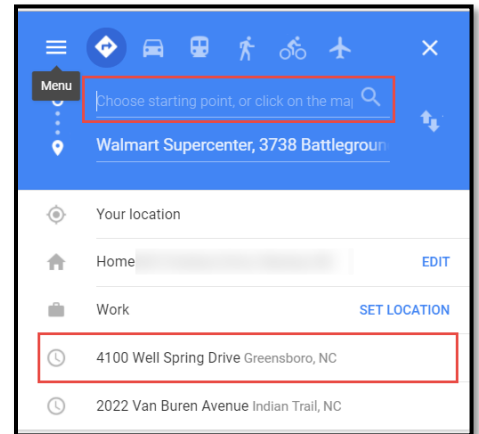

1. From Google Maps, type in an address in the **Search Google Maps** search box.
2. Click on **Directions**.

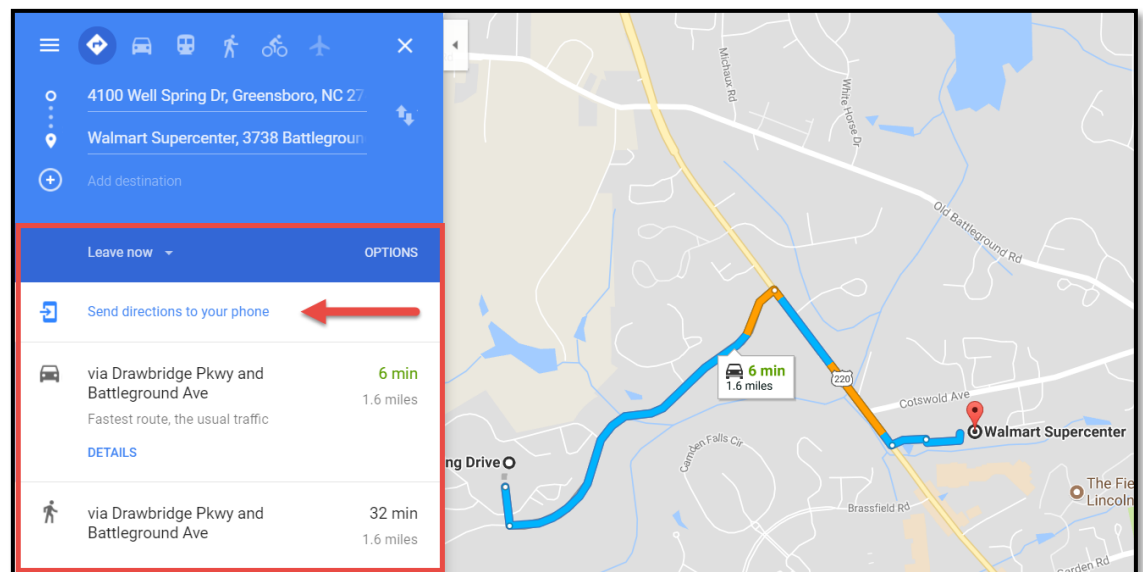

USING GOOGLE MAPS

- 3. Type an address for your starting point or select your **Home** address from the list.

- 4. Google Maps shows you a visual map as well as a turn by turn listing of directions.

NOTE: You can click the **Send directions to your phone** link to have the directions available on your smartphone.
