

STOP THE AUTO-PLAY ON VIDEOS (FROM YOUR KINDLE DEVICE)

Facebook, as a default option, automatically plays video on Kindle. You can turn this off (or at least choose the options you want) so that you don't use data or see annoying videos playing automatically.

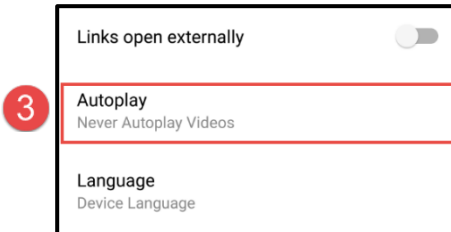

1. Launch **Facebook**.

2. Tap the **Menu** button, then scroll down and tap on **App Settings**.

3. Tap on **Autoplay**.

4. Tap on **Never Play videos**.
