

STOP NOTIFICATIONS AFTER COMMENTING (FROM YOUR DESKTOP)

When you comment on a friend's status update, you will receive notifications if anyone else comments on that same post. Sometimes you will get tired of seeing these notifications. You can easily stop receiving notifications with the following steps.

1. Launch Facebook and tap **Notifications**.
2. Select the post for which you wish to stop receiving notifications.
3. From the post, click the drop down arrow and click on **Turn off notifications for this post**.
