2523474	Equipment status is not updating properly within MOCR for multiple status update operations	XX-PART-UGI

AIW Installation and Upgrade Overview

Install AIW on top of UGI EAM 730-SP01.

Master Data Governance for AIW

AIW provides an easy-to-use interactive governance platform for monitoring, tracking and managing structured and unstructured asset data among multiple systems-of-record in the digital core. It allows processing of structured and unstructured asset master data change management efficiently. Also, mass approval of work item is supported via POWL (Personal Object Worklist).

In addition, it can be used to request, approve, and execute changes to the following Enterprise Asset Management objects in Mixed Multi object scenario, and in a specific change request.

- Functional Location
- Equipment Master
- MRO Bill of Material
- Measuring Point
- Work Center
- General Task List
- Functional Location Task List
- Equipment Task List
- Maintenance Plan/Item

AIW supports the following features:

- Mixed Multi-Object Change Request (MOCR)
- Copy of FLOC Mixed Multi Object hierarchy
- Mass processing of FLOC Mixed Multi Object hierarchy
- Hierarchy View
- Full Hierarchy
