2142411	Additional BO type codes and key structures for SM master data	CA-MDG-DRF
2156520	Remove change management from generic access class	CA-MDG-APP-CLF
2189621	MDG: Error in class CL_USMD_GENERIC_GENIL_ADAPTER in method	CA-MDG-AF
2229947	Data output of count report is incomplete	CA-MDG-AF

Performing the installation / update / upgrade

Add-On Installation or Upgrade via transaction SAINT

Once MDG 8.0 SP03 has been installed you can install the Add-on via transaction SAINT with stack.xml. Same steps can be followed also for upgrading from UGI1 720 to UGI1 730 release.

How to create stack.xml for it:

In the SAP Maintenance Optimizer (MOPZ) select the relevant add-on product version UTOPIA SM SOLUTIONS FOR MDG™ 7.30 at Maintenance optimizer transaction 'Choose Add-on Products' step.

Download and extract the packages to directory <DIR_TRANS>/EPS/in a n d save the stack.xml.

Then call transaction SAINT and choose 'Start' -> 'Load' to upload the Packages from the EPS In box.

After upload is finished -> choose 'Back' and 'Start' again. Select the add-on component UGI1 730 by providing stack.xml and choose 'Continue'. If all of the necessary conditions for importing the add-on have been fulfilled the system will now display the relevant queue. The queue consists of the add-on packages and can also contain Support Packages and other add-on packages. To start the installation process chooses 'Continue'.

For general information call transaction SAINT and choose 'Info' on the application toolbar. The system prompts you to enter a password for Utopia SM Solutions for MDG™. The password is: For more information, see the

relevant guides on SAP Service Marketplace <http://service.sap.com/instguides> -> SAP Solution Extensions -> SAP MDG for Enterprise Asset Management by Utopia.

Support Pack Installation via SPAM

Once UGI1 730 add on has been installed you can deploy the support packages via ABAP Support Package Manager (SPAM). In order to Import Individual Support Packages for the component UGI1 730 use the SPAM.

For downloading the support packages, you might require to generate stack.xml file.

How to create stack.xml for it:

In the SAP Maintenance Optimizer (MOPZ) select the relevant add-on product version UTOPIA SM Solutions for MDG™ 7.30 at Maintenance optimizer transaction 'Choose Add-on Products' step.

Download and extract the packages to directory <DIR_TRANS>/EPS/in and save the stack.xml.

Then call transaction SPAM and choose 'Support Package' -> 'Load Packages' → 'From Application Server' to upload the Packages from the EPS In box.

After upload is finished -> choose 'Display/Define' in front of Queue. Select the add-on component UGI1 730 by providing stack.xml and choose 'Continue' alternatively you can choose the individual component UGI1_730 and hit continue. If all of the necessary conditions for importing the support package have been fulfilled the system will now display the relevant queue. The queue consists of the Support Packages. To start the installation process chooses 'Continue'.

For general information call transaction SPAM and choose 'Info' on the application toolbar. The system prompts you to enter a password for Utopia SM Solutions for MDG™. The password is:
For more information, see the relevant guides on SAP Service Marketplace <http://service.sap.com/instguides> -> SAP Solution Extensions -> SAP MDG for Enterprise Asset Management by Utopia

Known Limitations and Errors

Known Limitations

There are no known limitations, for restrictions, please see the corresponding Release Restriction Note (SAP Note 2385538)

Known Errors

There are no known errors at the moment – please report any error via an SAP Incident under the component “XX-PART-UGI”.

Generation Errors

The installation packages of Utopia SM Solutions for MDG™ do not contain generation errors.

After the installation of Utopia SM Solutions for MDG™

Delivery Customizing

Delivery Customizing is imported into client 000 and may have to be copied to other clients. For more information, see Note [337623](#).

Please use the Utopia SM Solutions for MDG™ specific information in Master Guide and Operations Guide at SAP Service Marketplace:

<http://service.sap.com/instguides> -> SAP Solution Extensions -> SAP MDG for Enterprise Asset Management by Utopia

Language Support

As of release 7.30 of the Utopia SM Solutions for MDG™ Suite, the following languages are supported for Service Master:

- English
- German

The Utopia SM Solutions for MDG™ suite is delivered with English as the default language. The above language packages can be imported via the [SMLT](#) transaction.

Please contact Utopia for any other language support requirements.

For information about subsequently installing further languages in your system, see Note [195442](#).
