Obtain the following notes before you begin the installation.

- Add-ons - General Conditions and Upgrade Planning: [70228](#)
- Customizing after Installation / Upgrade: [337623](#)
- Problems with transaction SAINT: [822380](#)
- Secure passwords delivered by Utopia

2.1. Applicable Notes

Review the listed notes which are applicable to your release and apply accordingly.

2.2. Sizing

Refer to standard [sizing guides](#) and tools for evaluating sizing needs.

3. Installation

RFM 910 Solution Extension by Utopia has been installed and all mentioned prerequisite notes have been reviewed and applied as applicable. Also, ensure you have secured the passwords mentioned in the release note of the add-on component.

It is recommended to take a backup prior to installation of add-ons. For deploying any subsequent support packages at a later stage, you can use the SPAM tool.

3.1. Steps

- Download and extract the packages to directory <DIR_TRANS>/EPS/in of the application.
- Call transaction SAINT and choose 'Start' -> 'Load' to upload the Packages from the EPS In box.
- After upload, choose 'Back' and 'Start' again. Select the add-on component UGIRFMXL 910. If the necessary conditions for importing the add-on have been fulfilled, the system displays the relevant queue. The queue consists of the add-on packages and can also contain Support Packages and other add-on packages. To start the installation process, choose 'Continue' and run the import.
- After the process returns after completion click on 'Finish' to conclude the Installation process.

Note

For general information, call transaction SAINT and choose 'Info' on the Application Toolbar. The system prompts you to enter a password for UGIRFMXL 9.1. You can refer the Info tab section of the release note for password.

3.2 De-Installation

In case its required for you to de-install the UGIRFMXL package, it is to possible to deinstallation via SAINT tool.

Call transaction SAINT> select De-Installable Components tab> select component> Start> Proceed based on listed options till the Deinstallation process finishes.

Note

De-installation may require reset of implemented notes, manual corrections or other extension. De-installation can result in data loss based on configured scenario's and customizations. Do take a backup before running de-install process and after conclusion verify the impact before proceeding in other landscapes
