Dear Survey Member:

You have been selected to participate in an important consumer research study. We would like to thank you in advance for taking part. In order for the study to succeed and fulfill its intended purpose, which is to provide information to manufacturers as to consumer preference of products and services, every question must be answered. Your answers will be grouped with 10,000 other people's who have taken the time to fill out this questionnaire. This will help us provide a complete and accurate picture for manufacturers and will enable them to produce and advertise more effectively the kinds of products people want. As your answers are tabulated by computer, your individual responses are kept strictly confidential.

You are to complete the first section of this booklet. The second section, beginning with page 87, is to be completed by the person who does most of the shopping for groceries and household items. If that is you, please continue and complete the second section. If that is not you, please have the person who does most of the shopping fill out the second section.

Once again, we appreciate your help and cooperation.

Sincerely,

Dale Roberts

American Institute of Consumer Studies
