Methodology
Countries covered, methodology and sample size

GfK interviewed in summer 2016 more than 20,000 consumers (aged 15 and older) in 16 countries online. The data have been weighted to reflect the demographic composition of the online population age 15+ in each market.

- Argentina (online/n=1007)
- Australia (online/n=1001)
- Belgium (online/n=1004)
- Brazil (online/n=1500)
- Canada (online/n=1002)
- China (online/n=1510)
- France (online/n=1501)
- Germany (online/n=1502)
- Italy (online/n=1503)
- Mexico (online/n=1000)
- Netherlands (online/n=1003)
- Russia (online/n=1501)
- South Korea (online/n=1000)
- Spain (online/n=1500)
- UK (online/n=1501)
- USA (online/n=1536)
Questions

Do you currently monitor or track your health or fitness using an online or mobile application or through a fitness band, clip, or smartwatch? This could range from monitoring your diet, weight, or health concerns to tracking your steps or other exercise.

- Yes, I currently monitor or track
- Not currently, but I have monitored or tracked in the past
- No, I have never monitored or tracked my health or fitness
- Not sure

Why do you monitor or track your health or fitness? Select all that apply.

- To maintain or improve my physical condition/fitness
- To motivate myself to exercise
- To be more productive
- To monitor or track a specific health condition
- To lose weight
- Because it’s fun
- To improve sleep
- Because it’s part of my daily routine
- To compete with other people
- To improve sleep
- To train for an event (race, sport, etc.)
- To lose weight
- To improve energy level
- To compete with other people
- For some other reason
- Not sure
Global results
Highlights

- Across 16 countries, one in three internet users (33 percent) currently monitor or track their health or fitness via an online or mobile application, or via a fitness band, clip, or smartwatch

- Top 5 countries are China (45 percent), Brazil (29 percent), USA (29 percent), Germany (28 percent) and France (26 percent)

- Top 3 reasons for monitoring or tracking health and fitness:
  - “to maintain or improve my physical condition or fitness” (55 percent)
  - “to motivate myself to exercise” (50 percent)
  - “to improve my energy level” (35 percent)
