Please note: The S4 2019 release does not include an S4 release for the Waikato region. The weather effect that took down the Ruru transmission tower continues to impact coverage in the area and as a result no surveys will occur in Waikato until 2020. All historic S3 2017 data for Waikato will be carried forward for 2019 for both Total NZ and Waikato markets. The industry requests that all users ensure all data used for these markets is clearly identified within the source.
