

# IHI Virtual Expeditions

Helping teams  
make rapid  
improvements.

IHI Virtual Expeditions are topic-specific, action-oriented virtual programs that typically last two to four months. Expeditions are designed to help multidisciplinary teams make rapid improvements in the areas of greatest concern to health care organizations today.

## Upcoming IHI Virtual Expeditions

### BEGINS

November  
27

#### Building Reliability with Safety Huddles

This virtual program will provide teams with strategies to improve safety huddle processes. By the end of this program participants will be able to identify the components of highly functioning processes for huddles in their facility and identify opportunities to improve communication and collaboration.

### BEGINS

January  
24

#### Practical Tips for Large-Scale Improvement Initiatives

Get practical guidance and the tools needed to run large-scale improvement projects. This virtual program draws on the real-world experience of IHI staff, improvement advisors, and partners, and will provide case studies, and the structured guidance to successfully run large-scale improvement initiatives.

### BEGINS

March  
6

#### Pain Management: Moving Beyond Opioids

Get the information and skills needed to impact the multiple drivers of the opioid crisis in your community. By the end of this virtual program participants will understand pain management as a patient safety issue and be able to identify specific change ideas to test at their organization.
