

Arthur Nelson

Arthur Nelson is the global business systems owner for ARGUS Enterprise and other related forecasting platforms. He oversees and drives strategic system capabilities that promote process efficiencies and data reliability for Prologis' global operations.

Mr. Nelson joined Prologis in February 2014. Prior to joining Prologis, Mr. Nelson served as a senior associate at Point B, Inc. where he accumulated over 7 years of experience in business and technology related projects. He served 3 of those years as the Integrated Global Platform Quality Assurance Lead at Prologis. Prior to that, Mr. Nelson spent 7 years at Accenture as a Manager in their consulting practice. He has proven success in numerous roles in business and technical system implementation, process re-engineering, hands-on development and technical analysis, architecture and design, and product launch support. He has worked in the software, telecommunications, media and insurance industries.

Mr. Nelson has a Bachelor of Science in Finance and a Bachelor of Science in Risk Management/Insurance from the Florida State University.
