# WHAT'S NEW FROM INTERAXIONS

In an effort to continue providing our customers with the best-in-class functionality and services, we introduced several new features and enhancements to Chempax VB during Interaxions 2016. The ChempaxVB.NET interface continues to evolve and grow with new functionality. Additionally, we have partnered with a few new third party solution providers to extend the functionality of Chempax VB. These developments allow organizations to be more productive, efficient and gain better insight into their business.

### **CHEMPAXVB.NET**

The ChempaxVB.NET interface continues to grow as we have added functionality.

#### PORTALS

#### **eCHEMPAX**

The eChempax web interface is integrated into the ChempaxVB.NET interface. This allows users quickly access their eChempax information directly within ChempaxVB.NET.

## UPCOMING TRADE SHOWS

Meet Datacor Representatives at upcoming industry trade shows.

#### <u>August</u>

The "Chempax Product Features" Resource

16 - 19: ChemEdge 2016

#### <u>September</u>

- 7-9: Specialty & Agro Chemicals America Show
- 7 10: 2016 AWT Annual
- Convention & Exposition
- 19 21: NACD Northeast Region Meeting

# SAVE THE DATE

May 16 - 19, 2017 Harrah's Resort Atlantic City Atlantic City, NJ

### WAREHOUSE

A new Warehouse Portal has been added to the ChempaxVB.NET interface for all warehouse specific inquiries.

## **INVENTORY CONTROL – STOCK TRANSACTIONS (IC 1)**

The Stock Transaction Entry program is available in the ChempaxVB.NET interface with some notable improvements and new features.

For lot-controlled products, Chempax VB6 requires the selection of a product, then the selection of a warehouse, and then the selection of a lot. The all-in-one search in the new version of IC1 allows for a lookup by lot #, and/or warehouse, and/or product. This allows for a quicker entry way into the transaction.

 The transaction confirmation screen includes a comprehensive list of changes to be recorded, including a total change in inventory value (if applicable).

• The datasheet view includes a full history of all previously entered Stock Transactions, including those entered in Chempax VB6.

#### **CALENDAR**

The Calendar has been enhanced to allow users the ability to add multi-user appointments. This is extremely useful for enterprise wide events such as period closings or meetings.

#### **SEARCH CONTROLS**

A context menu for customizing the search controls has been added. Users now have the ability to choose additional fields to be displayed and/or included in the search.

### THIRD PARTY INTEGRATIONS

Third Party solutions are an important resource for extending the functionality of Chempax VB. We have recently partnered with Avalara, TrackAbout and Odyssey to address critical business needs.

#### **AVALARA AVATAX**

Avalara AvaTax is the leading cloud-based transactional tax compliance solution. Their services have been built into Order Entry/Maintenance, Invoice Entry and Invoice Cancel/Re-Invoice. Utilizing AvaTax will allow businesses to achieve compliance, cut costs, increase efficiencies and focus on future growth.

## Avalara Making sales tax less taxing

#### **TRACKABOUT**

TrackAbout is a cloud-based asset tracking software for equipment, tools, containers and more. Users can better manage their physical, durable, returnable assets like totes and cyclinders.

#### WIN (WEB INTEGRATED NETWORK)

WIN, a breakthrough Transportation Management Solution (TMS), developed by Odyssey, a leader in chemical logistics, has been integrated with Chempax. It offers users visibility, cost savings, and access to carriers who are experts in handling challenging chemical cargo.

#### **ONE WEB PORTAL WHERE SHIPPERS CAN:**

### **CHEMICAL DATA REPORT (CDR)**

A new report has been added to Chempax VB called the Chemical Data Report. This report provides information needed to complete the required Toxic Substances Control Act (TSCA) Chemical Data Reporting form on the EPA website. For the calendar years of 2012 - 2015, the report presents total quantity in lbs by CAS number by US warehouse for: Quantity Manufactured, Quantity Exported, Quantity Imported, Quantity Imported Direct Ship, and Quantity Used (quantity manufactured + imported – shipped). <u>Click Here</u> for more information about the Chemical Data Reporting under the Toxic Substances Control Act (TSCA).
