CONFERENCE BROCHURE

PLEASE JOIN US

YOU'RE INVITED TO INTERAXIONS 2020

For over 25 years, Datacor's Annual User Conference, InterAXions, has provided customers with the chance to learn more about Datacor ERP and Datacor CRM and drive product development. Whether you are a new or veteran user, three intensive days of hands-on training, networking opportunities, and one-on-one time with the Datacor team is time well-spent.

Join us in Florham Park, New Jersey for InterAXions 2020 as we look at TOMORROW'S VISION, TODAY.

WHO SHOULD ATTEND

DATACOR ERP AND DATACOR CRM USERS WHO WILL BENEFIT FROM ATTENDING INTERAXIONS 2020 INCLUDE, BUT ARE NOT LIMITED TO:

- Accounting
- Administrative Manager
- CEO
- CFO
- Chemist
- Compliance Coordinator
- Controller
- Customer Service Manager
- Database Administrator
- Director of Finance

- Treasurer
- Vice President

BENEFITS OF ATTENDING INTERAXIONS 2020

- If you are just starting to use Datacor ERP and/or Datacor CRM, you can take advantage of the many training and breakout sessions to improve your learning curve.

- Even if you have used atacor ERP and/or Datacor CRM for a number of years, you will discover new ways the system(s) can assist with activities you perform every day.

- New features are added to Datacor ERP and Datacor CRM on a regular basis and InteraAXons is the best place to learn how to put them to use for your business.

- In both breakout sessions as well as interactions with other users, you will learn the most recent best practices to ensure you are using Datacor ERP and Datacor CRM more efficiently.

- We continue to expand our support tools to better serve our clients. InterAXions is the perfect place to learn the latest enhancements and meet the Datacor Team.

"The conference is a must for any Datacor software user. The experience and information you receive in a few days cannot be duplicated."

- Jennifer A.

ENGAGING BREAKOUT SESSIONS
MORE SESSIONS & MORE FLEXIBILITY

With over 100 educational breakout sessions, there's a lot to learn at InterAXions 2020. From interactive sessions, hands-on workshops, small group seminars, panel discussions, diagnostic sessions to one-on-one training, there is something for everyone. Attendees will have the flexibility to customize their schedules to fit their specific needs and interests. Potential breakout session topics include:

- Accounting
- Administration Maintenance
- Barcoding
- CRM
- Customer Service
- Customizing Reports
- Customizing Screens
- Document Management
- DOT NET
- Financial Statements
- Forecasting
- GHS
- Implementing New Features

- Inventory Management
- ISO Compliance
- Latest Features
- Logistics
- Manufacturing
- Module Controls
- MS Access
- MS Word & Excel
- Operations
- Order Entry
- Plant Maintenance
- Portals

- Personalization
- Price Changes
- Quick Tasks
- Reconciling
- Reporting & Analytic Tools
- Sales Analysis
- Table Columns & Table Alerts
- Transaction Tracking
- Workflow
- And Much More…

"The most valuable thing about InterAXions is the knowledge I took home about how to better utlize Datacor ERP."

- Pam W.

Breakfast *(6:45am - 8:30am)*

Registration Packet Pick-Up *(7:30am - 8:30am) - Hotel's Main Lobby*

8:30 AM — **InterAXions 2020 Kick-Off** *(8:30am - 9:00am)*

9:00 AM — **Break** *(9:00am - 9:10am)*

108 — VB Opening Session *9:10am - 10:50am*

125 — Breaking News - Part I *9:10am - 10:30am*

Break *(10:30 - 10:40)*

109 — Datacor ERP Best Practices *11:00am - 12:00pm*

110 — Training - AD.NET (Administration Module) *11:00am - 12:00pm*

VB CLASSES

*Class offered twice during conference

108 OPENING SESSION   9:10 AM-10:50 AM
The opening session will provide all Datacor ERP VB attendees an opportunity to learn about major new features in Datacor ERP VB.NET.

109 DATACOR ERP BEST PRACTICES   11:00 AM-12:00 PM
This seminar will take advantage of the decades' worth of experience available on the Datacor ERP VB team to review best practices to get the most from the Datacor ERP software, from application setup and distribution on the server, to system configuration, user interface options and data entry. We will also review how you can keep up to date with Datacor ERP VB changes on an ongoing basis back in the office, including receiving email notification directly from the Datacor ERP VB team when new features are made available.

110 TRAINING - AD.NET (ADMINISTRATION MODULE)   11:00 AM-12:00 PM
This session will introduce you to the Administration module using the VB.NET interface. In addition to fully exploring the programs available and basic functionality, the seminar will concentrate on areas where features have been added or the user experience has been improved in the new interfaces.

111 CREATING FINANCIAL STATEMENTS WORKSHOP   11:00 AM-12:00 PM
Datacor ERP VB has a built-in financial report writer which can produce professional-looking income statements, balance sheets and other financial reports, and this feature has been fully revamped in Datacor ERP VB.NET. Many customers gloss over this part of Datacor ERP during the initial implementation, so this workshop will give you a chance to learn about the advanced formatting options and calculation functions. You will also get to see the improvements that have been made to the statement definition process in Datacor ERP VB.NET

112 DATACOR ERP.NET INTRODUCTION WORKSHOP*   11:00 AM-12:00 PM
The Datacor ERP VB.NET interface presents your data in a dynamic "business-centric" style which lets you look at your overall enterprise and then drill down to the part of the business that requires attention. Datacor ERP VB.NET also includes a growing list of updated versions of the data entry screens and reports. This workshop will give you an opportunity to experience this new interface that will continue to replace the current look and feel of the current Datacor ERP VB 6 product. (Note: this session will be offered twice during the conference)

113 ACCOUNTING FORUM (PART 1 OF 2)   1:15 PM-2:15 PM
This session will focus on topics specific to the AP, AR and GL modules in Datacor ERP VB.

114 DOTNET SUCCESS STORIES (GROUP DISCUSSION)   1:15 PM-2:15 PM
Moving an existing user base to Datacor ERP VB.NET can appear to be a daunting task. This session will share the knowledge of both Datacor ERP VB team members and fellow Datacor ERP users to assuage your fears and help that process go as smoothly as possible. It will also look to highlight user interface improvements and new features that replace or save time over the same tasks in Datacor ERP VB6 to help sell even the most stuck in their ways end user on the benefits of the new software.

115 CUSTOMIZING DATACOR ERP.NET SCREENS WORKSHOP   1:15 PM-2:15 PM
Datacor ERP VB.NET includes a vast array of options and features which allow users to change the appearance of the portals and of Datacor ERP data entry screens. Some of these are cosmetic, such as screen colors and column layouts. Others, such as custom menus, favorites, custom help guides and Spanish language support, can greatly

aid in productivity. Using the "Customize" button in Datacor ERP VB.NET, you can move and resize fields, turn text boxes into drop down lists, add your own validation rules, and even add your own fields to screens. This workshop will allow you to explore both basic and advanced features and present a hands-on opportunity to learn about and practice using these features in the Datacor ERP VB.NET interface.

116 ANALYZING DATACOR ERP DATA USING POWER BI WORKSHOP   1:15 PM-2:15 PM

This session will provide a hands-on introduction to Microsoft's Business Intelligence (BI) offering. Using a workshop format, you'll have an opportunity to experience how this tool can be used to rapidly develop analytics from Datacor ERP data.

117 DATACOR RESEARCH AND DEVELOPMENT   1:15 PM-2:15 PM

This past year, Datacor acquired Procession Software, one of the leading providers of lab formulation and regulatory control software. Take this class to learn about the roadmap for Datacor ERP and Procession Software's new lab formulation software, which will improve your lab operations. The new software will make it easier to create SDSs, manage R&D projects and calculate chemical property values.

118 ACCOUNTING FORUM (PART 2 OF 2)   2:25 PM-3:25 PM

This session will focus on topics specific to the AP, AR and GL modules in Datacor ERP VB.

119 TRAINING - RP.NET (RESOURCE PLANNING)   2:25 PM-3:25 PM

This session will introduce you to the Resource Planning module using the VB.NET interface. In addition to fully exploring the programs available and basic functionality, the seminar will concentrate on areas where features have been added or the user experience has been improved in the new interfaces.

120 WORKING WITH YOUR DATA IN MS ACCESS WORKSHOP   2:25 PM-3:25 PM

This workshop introduces users to the Datacor ERP VB database. We will explain some of the basic concepts of the Microsoft Access relational database and show you how you can extend the capabilities of Datacor ERP VB by working directly with the data. You will learn the basics of using queries and other features of Microsoft Access. We will also review tips and techniques specific to the most recent versions of MS Access.   If you are new to Datacor ERP VB, or you are ready to look "under the hood," this workshop is a must.

121 CREATING CUSTOM REPORTS USING CRYSTAL REPORTS WORKSHOP   2:25 PM-3:25 PM

One of the features of Datacor ERP VB.NET reports is the ability to view a Crystal Reports version of the report output. In this workshop, users will be given the opportunity to gather hands-on experience on how to modify Crystal Reports. Users will gain knowledge on how to modify fields and labels. The creation of formulas in Crystal Reports will also be covered and how to add it to a new section of the report. Key differences between the design of Crystal Reports and Microsoft Access reports will be covered.

122 NEW FEATURE TEST TRACK WORKSHOP   3:30 PM-5:00 PM

If you would like to try out what you've learned, our workshop lab will be available for your use during. We encourage you to stop by and try out features of Datacor ERP that you've heard about in various classes. Members of the VB Team will be available to answer questions. Although the sessions will be informal, please sign up so that we know how many people are planning to attend.

123 DATACOR ERP.NET ADVANCED WORKSHOP   3:30 PM-5:00 PM

This will give you an opportunity to look at newly developed features in Datacor ERP VB.NET and learn about more advanced features and discuss future directions directly with the developers.

124 ONE ON ONE SESSIONS* 3:30 PM-5:00 PM

This session is designed to provide attendees the opportunity to spend additional time with VB team members. This will be your chance to try out the newest features and have your specific company issues answered. We encourage you to bring your laptop or tablet device, but most importantly your questions and ideas that you would like to discuss. In the past, this class has proven to be one of the most anticipated sessions of the conference. In order to give everyone an equal opportunity to meet with the team, each company can only register for one time slot and should come together as a team.

THURSDAY, MAY 14, 2020

219 CUSTOMER SERVICE FORUM (PART 1 OF 2) 8:30 AM-9:30 AM

This session will focus on topics specific to the Order Entry, Invoicing, Pricing and Sales Analysis modules in Datacor ERP VB.

220 TRAINING - AP.NET (ACCOUNTS PAYABLE) 8:30 AM-9:30 AM

This session will introduce you to the Accounts Payable module using the VB.NET interface. In addition to fully exploring the programs available and basic functionality, the seminar will concentrate on areas where features have been added or the user experience has been improved in the new interfaces.

221 AUTOMATING WITH SERVER TASKS 8:30 AM-9:30 AM

Would you like your Datacor ERP system to keep working after you've left for the day? Datacor Server Tasks (DST), the replacement for the Background Processor, provides the long-awaited solution. In this seminar, we'll show you how to set up job procedures to run nightly, weekly or even monthly reports and email or print them automatically. Even invoices and future price updates can be automated. We'll also show you how to use DST to run various start of day, end of day and end of month tasks, including making backup copies of your database and doing compact/repairs. DST can even log off users so that the compact/repair will work correctly, so if you've been logging on from home, this seminar may get your evenings back!

222 CUSTOMIZING DATACOR ERP REPORTS IN MS ACCESS WORKSHOP (PART 1 OF 2) 8:30 AM-9:30 AM

In addition to providing a repository of data, MS Access is one of the methods used to produce both standard and custom Datacor ERP VB reports. This workshop will show you how to customize any of these reports as well as use them as a starting point to create your own specialized versions. We will also show you the correct way to save and publish these reports so that they can be backed up and made available to your users.

223 CUSTOMER SERVICE FORUM (PART 2 OF 2) 9:40 AM-10:40 AM

This session will focus on topics specific to the Order Entry, Invoicing, Pricing and Sales Analysis modules in Datacor ERP VB.

224 TRAINING - BC.NET (BARCODING) 9:40 AM-10:40 AM

The use of barcode scanners has continued to expand across the Datacor ERP VB user base, and the functionality has been fully revamped in the Datacor ERP VB.NET barcode module. In this seminar, we will explore the latest version of the Datacor ERP VB scanner programs and guide you through the steps needed to start using barcode scanners for operations such as physical inventory and location transfers. We'll also describe the more advanced features that customers are using such as automatic transfers to staging areas, printing of barcode, real time cycle counting, automated batch receiving.

225 AUTOMATED PAYMENTS
9:40 AM-10:40 AM

Datacor ePayments, powered by Nvoicepay, saves you time, money and headaches by consolidating your disconnected payment processes into a single workflow, optimizing payments for cost savings and creating net new revenue through credit card rebates. This seminar will show you how ePayments streamlines the payment process in Dataor ERP VB. In the past, the check run process typically involved selection of vouchers, generation of reports, manual review and approval, and printing, signing and mailing of paper checks. ACH simplified this, but it was up to you to maintain bank account information for your suppliers and upload ACH files to your bank. With ePayments, you simply select vouchers for payment and Nvoicepay does the rest!

226 CUSTOMIZING DATACOR ERP REPORTS IN MS ACCESS WORKSHOP (PART 2 OF 2)
9:40 AM-10:40 AM

In addition to providing a repository of data, MS Access is one of the methods used to produce both standard and custom Datacor ERP VB reports. This workshop will show you how to customize any of these reports as well as use them as a starting point to create your own specialized versions. We will also show you the correct way to save and publish these reports so that they can be backed up and made available to your users.

227 TRACKABOUT INTEGRATION
10:50 AM-11:50 AM

Does it seem like you're constantly purchasing new totes or cylinders? Are you wondering where your IBCs or rental equipment go and if those assets are with customers or lost in your warehouse? TrackAbout is an affordable cloud-based returnable container asset management software solution for tracking, managing and maintaining totes, drums, gas cylinders, rental equipment and other returnable containers. Using barcodes or RFID tags, the system collects information with rugged handheld scanners, smartphones or tablets and integrates that information seamlessly back to your Datacor ERP solution. In this seminar you'll see how TrackAbout works and how replaces Serialized Container Tracking in Datacor ERP.

228 TRAINING AR.NET (ACCOUNTS RECEIVABLE)
10:50 AM-11:50 AM

This session will introduce you to the Accounts Receivable module using the VB.NET interface. In addition to fully exploring the programs available and basic functionality, the seminar will concentrate on areas where features have been added or the user experience has been improved in the new interfaces.

229 AUTOMATING DATACOR ERP PROCESSES (GROUP DISCUSSION)
10:50 AM-11:50 AM

Software has been making jobs easier for years, but can it fully automate tasks in your office? Two tasks that come to mind are entering sales orders and creating AP vouchers, both of which usually involve translating data from PDFs. Software is now available to "read" PDF purchase orders or vendor invoices and automatically create transactions. In this session we'll explore how automation could be used with Datacor ERP for these and other tasks. In an open discussion, we'd like to hear your ideas of how tasks in your office tasks could be automated. This will help shape future Datacor ERP developments.

230 DATACOR ERP.NET INTRODUCTION WORKSHOP*
10:50 AM-11:50 AM

The Datacor ERP VB.NET interface presents your data in a dynamic "business-centric" style which lets you look at your overall enterprise and then drill down to the part of the business that requires attention. Datacor ERP VB.NET also includes a growing list of updated versions of the data entry screens and reports. This workshop will give you an opportunity to experience this new interface that will continue to replace the current look and feel of the current Datacor ERP VB 6 product.

231 ONE ON ONE SESSIONS*   10:50 AM-11:50 AM

This session is designed to provide attendees the opportunity to spend additional time with VB team members. This will be your chance to try out the newest features and have your specific company issues answered. We encourage you to bring your laptop or tablet device, but most importantly your questions and ideas that you would like to discuss. In the past, this class has proven to be one of the most anticipated sessions of the conference. In order to give everyone an equal opportunity to meet with the team, each company can only register for one time slot and should come together as a team.

232 LOGISTICS FORUM   1:00 PM-2:00 PM

This session will focus on topics specific to the Inventory Control, Purchasing, Safety and Resource Planning modules in Datacor ERP VB.

233 TRAINING - BT.NET (BATCH MANUFACTURING)   1:00 PM-2:00 PM

This session will introduce you to the Batch Manufacturing module using the VB.NET interface. In addition to fully exploring the programs available and basic functionality, the seminar will concentrate on areas where features have been added or the user experience has been improved in the new interfaces.

234 DOCUMENT MANAGEMENT   1:00 PM-2:00 PM

This seminar will explore the features available for the storage and distribution of documents in Datacor ERP VB. We will look at the interfaces available for linking documents to Datacor ERP VB data, and options for automatically creating documents and linking them to various types of Datacor ERP transactions. One area of focus will be the continuing enhancements to the distribution options for documents via Datacor ERP, including the ability to add your own "stamp" to documents received from vendors in the form of PDFs.

235 DATACOR ERP.NET: DATA ANALYSIS AND REPORTING WORKSHOP   1:00 PM-2:00 PM

Many of Datacor ERP report screens have been re-engineered and released in Datacor ERP VB.NET. This workshop will also take an in-depth look at the options available in the Datacor ERP VB.NET report screens. Both the filtering and sorting options have been expanded to include almost any possible field directly related to the data being analyzed, and the built-in Datasheet tab allows for quick tabular analysis without the process of previewing and exporting to some other application. Outside of the reports, Datacor ERP VB.NET has an abundance of native data analysis options available in the portals that this workshop will explore in full, including grouping and totaling and custom calculated columns.

236 MANUFACTURING FORUM   2:10 PM-3:10 PM

About half of the companies that attend InterAXions identify themselves as manufacturers. This seminar will provide an opportunity for attendees from these companies to focus on topics specific to their industry segment and will include the Top 10 lists for the BT and QC modules.

237 TRAINING OE.NET (ORDER ENTRY)   2:10 PM-3:10 PM

This session will introduce you to the Order Entry module using the VB.NET interface. In addition to fully exploring the programs available and basic functionality, the seminar will concentrate on areas where features have been added or the user experience has been improved in the new interfaces.

238 END OF PERIOD   2:10 PM-3:10 PM

End of period processing in Datacor ERP VB is very forgiving, allowing periods to be easily re-opened, but there are some procedures you should follow to avoid reconciliation nightmares and to maximize the available analysis tools. This seminar will include a review of the closing procedures for the Accounts Receivable, Accounts Payables, Sales and Inventory sub ledgers, and the GL. We will also demonstrate techniques for reconciling the sub ledgers to the

GL.

239 CASE STUDIES IN PORTAL POSSIBILITIES WORKSHOP   2:10 PM-3:10 PM

The portals are the first thing you see when opening Datacor ERP VB.NET and represent the core of the software. But with over half a dozen data specific portals, some with over a dozen tabs and each of those multiple panels and grids, the sheer amount of data available can be overwhelming. This workshop will get you over your "paralysis of analysis" by focusing on solving a number of specific business cases that will demonstrate the full power of the data and functionality available in the portals.

240 RP SUCCESS STORIES (GROUP DISCUSSION)   3:20 PM-4:20 PM

Resource Planning is a time-tested business philosophy, supported by the Resource Planning (RP) Module in Datacor ERP VB.NET. We will discuss Forecasting, Master Scheduling and Material Requirements Planning, along with how related functions outside the Resource Planning Module can impact the success of your implementation. Product consultants will be present to share their experiences with real world implementations of MRP in Datacor ERPand the benefits of a successful deployment.

241 TRAINING - IN.NET (INVOICING)   3:20 PM-4:20 PM

This session will introduce you to the Invoicing module using the VB.NET interface. In addition to fully exploring the programs available and basic functionality, the seminar will concentrate on areas where features have been added or the user experience has been improved in the new interfaces.

242 INVENTORY POSTING AND PO WITH AP   3:20 PM-4:20 PM

With the increased volatility in pricing, the need for accurately costing inventory has become a larger issue for many chemical companies. Datacor ERP VB includes features that allow for the simplification of the tracking of inventory costs and ensure that the different views, (Inventory, GL, Accounts Payable and Purchasing), are all in agreement. This seminar explains how to set up the Inventory GL Mapping and use it in conjunction with PO Receipts and AP voucher entry to achieve these objectives.

243 DATACOR ERP.NET ADVANCED WORKSHOP   3:20 PM-4:20 PM

This will give you an opportunity to look at newly developed features in Datacor ERP VB.NET and learn about more advanced features and discuss future directions directly with the developers.

244 ONE ON ONE SESSIONS*   3:20 PM-4:20 PM

This session is designed to provide attendees the opportunity to spend additional time with VB team members. This will be your chance to try out the newest features and have your specific company issues answered. We encourage you to bring your laptop or tablet device, but most importantly your questions and ideas that you would like to discuss. In the past, this class has proven to be one of the most anticipated sessions of the conference. In order to give everyone an equal opportunity to meet with the team, each company can only register for one time slot and should come together as a team.

FRIDAY, MAY 15, 2020

304 ADMISTRATIVE/IT FORUM (PART 1 OF 2)   8:30 AM-9:30 AM

The Administration/IT Forum will cover topics involving Datacor ERP maintenance and administration, including the Administration, File Maintenance and Constants menus. It will also provide an opportunity to discuss areas of IT that relate to DatacorERP, such as servers, remote access, printers, scheduled tasks, emailing, backup and recovery, etc.

305 TRAINING - PO.NET (PURCHASING)   8:30 AM-9:30 AM

This session will introduce you to the Purchasing module using the VB.NET interface. In addition to fully exploring the programs available and basic functionality, the seminar will concentrate on areas where features have been added or the user experience has been improved in the new interfaces.

306 SALES ANALYSIS - REPORTS AND PORTALS   8:30 AM-9:30 AM

Datacor ERP VB offers a large number of reports, inquiries and portals which allow for the analysis of sales and profit data. The available options range from detailed transaction reports, to summaries by month, month range or year, with a nearly endless number of subtotaling choices. This seminar will compare and contrast the various programs on the Invoicing and Sales Analysis menus to help you determine which are best matched to meet various sets of requirements. We will also explain the system custom options which affect sales and profit reporting and explore options for entering forecast/budget figures and analyzing them versus actual sales.

307 TOPICS FOR CHEMICAL DISTRIBUTORS (GROUP DISCUSSION)   8:30 AM-9:30 AM

A large number of Datacor ERP usage is by "factory pack" distributors. For these companies, the relationship with the suppliers they represent is just as critical as the relationship with the customers they sell to. As such, distributors have somewhat different purchasing, reporting and analysis requirements than other Datacor ERP users. This session will provide an opportunity to focus on the needs of distributors and discuss how different Datacor ERP users have managed the dealt with the unique requirements of this segment of the industry.

308 ADMINISTRATION/IT FORUM (PART 2 OF 2)   9:40 AM-10:40 AM

The Administration/IT Forum will cover topics involving Datacor ERP maintenance and administration, including the Administration, File Maintenance and Constants menus. It will also provide an opportunity to discuss areas of IT that relate to DatacorERP, such as servers, remote access, printers, scheduled tasks, emailing, backup and recovery, etc.

309 TRAINING - PR.NET (PRICING)   9:40 AM-10:40 AM

This session will introduce you to the Pricing module using the VB.NET interface. In addition to fully exploring the programs available and basic functionality, the seminar will concentrate on areas where features have been added or the user experience has been improved in the new interfaces.

310 MAKING THE TRANSITION TO DOTNET   9:40 AM-10:40 AM

Datacor ERP VB.NET is the new face of the Datacor ERP VB software, so configuring it and getting users in a position where they can comfortably perform their jobs is a process that all Datacor ERP installations will need to go through at some point. This seminar will review the options for rolling out the new interface to your user base, along with the tools available to transition screen customizations, report definitions and user personalization from Datacor ERP VB6 to Datacor ERP VB.NET. In addition to an overview of the features of the user interface and data entry screens, the class will look at examples of commonly performed lookups and tasks in Datacor ERP VB6 and explore how to accomplish those same goals in Datacor ERP VB.NET. The seminar will also detail the suggested system requirements for using Datacor ERP VB.NET, which do differ from the requirements for Datacor ERP VB6.

311 ORDER SHIPPING MODULE (GROUP DISCUSSION)   9:40 AM-10:40 AM

Whether you use common carriers or your own fleet of trucks, getting product to the customer involves unique challenges which have sometimes been outside the main focus of ERP systems. Datacor ERP VB has a number of existing offerings that are aimed at addressing these challenges, but Datacor plans on developing a fully integrated Order Shipping module as part of the 2020 development cycle. The session will provide an opportunity for an open discussion about how you are addressing the shipping process and what features you would like to see to improve the Order Shipping process in Datacor ERP.

312 WRAP UP   10:50 AM-11:30 AM

As the final session, the Wrap-up will provide an opportunity to discuss potential future directions for Datacor ERP VB, Datacor's services and InterAXions itself.
INTERAXIONS 2020 WELCOME PARTY

TUESDAY, MAY 12 6:00 PM - 9:00 PM | INCLUDED IN REGISTRATION

Get the week started in style with the official InterAXions 2020 Welcome Party! Join us Tuesday evening for some hors d'ouevres and drinks to kick off the conference at the Vanderbilt's Sports & Spirits Lounge. This is a perfect place to get reacquainted with old friends and make some new ones!

BROADWAY SHOW - AIN'T TOO PROUD - THE LIFE AND TIMES OF THE TEMPTATIONS

WEDNESDAY, MAY 13 3:30 PM - 11:00 PM | $150 PER PERSON

Ain't Too Proud is the electrifying new musical that follows The Temptations' extraordinary journey from the streets of Detroit to the Rock & Roll Hall of Fame.

Five guys. One dream. And a sound that would make music history. With their signature dance moves and unmistakable harmonies, they rose to the top of the charts creating an amazing 42 Top Ten Hits with 14 reaching number one. The rest is history — how they met, the groundbreaking heights they hit, and how personal and political conflicts threatened to tear the group apart as the United States fell into civil unrest. This thrilling story of brotherhood, family, loyalty, and betrayal is set to the beat of the group's treasured hits, including "My Girl," "Just My Imagination," "Get Ready," "Papa Was a Rolling Stone," and so many more.

This outing includes refreshments, snacks, box dinner and deluxe motor coach transportation to NYC and back to the hotel. The cost to attend this event is $150. Check-in begins at 3:30 PM in the Wyndham Hamilton Park Hotel Lobby and bus will depart promptly at 3:45 PM.

EXPLORE NEW YORK CITY

WEDNESDAY, MAY 13 3:30 PM - 11:00 PM | $50 PER PERSON

Have you been to New York City or as some people call it "The Big Apple"? It truly is a spectacular place to visit. That is why we are offering attendees the opportunity to explore this amazing city and experience first-hand the many different things it has to offer. If you want to attend, but do not know where to start your adventure, do not worry! Datacor is happy to provide some suggestions of New York City hotspots. The only requirement besides having fun is to return to the bus at the designated departure time or you will be responsible for your own transportation back to New Jersey.

This outing includes refreshments, snacks, box dinner and deluxe motor coach transportation to NYC and back to the hotel. The cost to attend this event is $50. Check-in begins at 3:30 PM in the Wyndham Hamilton Park Hotel Lobby and bus will depart promptly at 3:45 PM.

NEW! COMMUNITY SERVICE EVENT

WEDNESDAY, MAY 13 4:00 PM - 6:00 PM | $25 DONATION PER PERSON

Attendees gather at the hotel will have the opportunity to pack "Brown Bag Buddy" lunch bags with meals for area children through the Interfaith Food Pantry of Morris County. Each bag will be filled with kid-friendly, accessible, shelf-stable foods. Datacor will match participant contributions dollar for dollar, and all donations support the Interfaith Food Pantry of Morris County Brown Bag Buddy Program.
