

Hi there,

As you know, Employment Hero's mission is to build a better world at work. Though the circumstances may have changed, our commitment to helping Australian businesses and their employees has not.

Our focus in the last week has been on helping your business manage the fallout of COVID-19. This continues to be a priority for us, however it would be remiss of us not to acknowledge the significant impact our current circumstances are having on your employees.

Employee wellbeing is crucial to business success; now more than ever. From this week, we will be providing your employees with resources to promote physical, mental and financial wellbeing in reaction to COVID-19. From tips on working from home [safely](#) and [productively](#), to [a guide to mindfulness](#) and [how to prioritise your mental health during social distancing](#), our goal is to support your employees as well as we support your business.

The above mentioned resources will be displayed to your employees after sign-in via the Wellness Widget on the employee dashboard (similar to the company feed or onboarding status widget—see below). We will update these resources regularly and are open to any suggestions from our customers surrounding what topics they feel would be most helpful during this time.

The Wellness Widget has already been enabled for account administrators or owners; please sign-in to Employment Hero to see what the widget will look like for your employees. The Wellness Widget will be available to all employees on Friday, 27 March 2020. The widget is optional and should you not want your employees to access these resources, please reply to this email before Friday.

We look forward to continuing to support you and your team in the weeks and months ahead.

All the best,

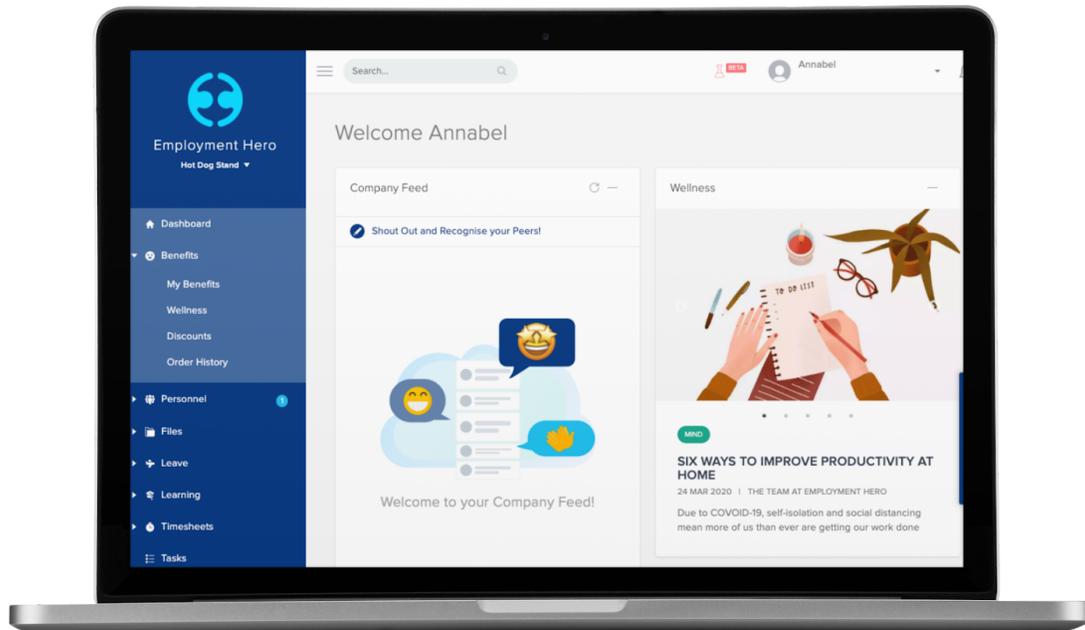

**Ben Thompson.**

CEO and Founder

Level 2, 441 Kent St, Sydney, NSW, 2000

*Employment Hero. A better world at work.*

## Wellness Widget.

## Email Template to Staff.

*Hi team,*

*I appreciate that times are tough for all of us at the moment. With everything going on, I'd like to remind you all how important it is to stay healthy and well. On top of doing our best to prevent the spread of COVID-19, our mental, financial and physical wellbeing should still be a priority.*

*Our people management software, Employment Hero, has added a new widget to your employee portal. Updated weekly, this is where you will find articles that will support you and your loved ones during this time. From tips on working home [safely](#) and [productively](#), to [a guide to mindfulness](#) and [how to prioritise your mental health during social distancing](#), I hope the Wellness Widget will be of value to you.*

*All the best,  
XXXX*
