

CAREER TECHNICAL EDUCATION

Auto Body Repair

Silicon Valley Career Technical Education

Auto Body Repair

This 348-hour (AM) or 522-hour (PM) NATEF-approved, one-year course is designed to inform and instruct students in the basics of auto body repair. Instruction includes theory and techniques related to the process of welding, metal straightening and panel/body alignment on a variety of auto body industry materials including metal, glass and plastic. Students will learn effective customer relations and sales in multiple settings. Estimating damage and repair costs and procedures are key components in this course. The student will be prepared for entry-level employment in the auto body repair industry as an auto body repair technician. The class focuses on academic, technical skills, and employability practices. Students will develop personal and professional skills in the classroom that will transfer to the workplace:

- Collision repair
- Shop safety and efficiency
- Vehicle construction technology
- Service information, specifications, and measurement
- Hand tool technology
- Power tool and equipment technology
- Body shop materials and fastener technology
- Welding equipment technology

CLASS BENEFITS

- 20-30 high school credits earned per year
- Develop skills leading to a highly paid, high demand job
