Helping Mom Downsize

Beth, Annie and Ted knew that the time had come to move their aging mother to Virginia from the family home in Philadelphia. But emptying a 3,000-square foot house packed with decades of memories felt insurmountable. The three children lived thousands of miles from Mom and had full-time jobs and young children at home.

Our certified Senior Move Manager created a floor plan with Mom that would fit her furniture and lifestyle. From there, they determined together what to keep, sell, donate and discard, acknowledging the memories along the way. Mom's boxes were packed with care and labeled according to her new home layout. WayForth seamlessly coordinated the transport of her items and unpacked all of her boxes based on the layout they created together. Mom woke up in her own bed the next day, completely resettled into her new home and ready to spend time with her grandchildren.

Smooth the Move

Our team of senior move managers help clients with sorting, floor planning and resettling, guiding the transition from start to finish.

Floorplanning

We develop custom, to scale plans designed to maximize space.

Sorting

We can empty an entire house in days, sorting items to keep, sell, donate and discard.

Packing

Our experienced packers are trained to prepare belongings for safe transport.

Resettling

Our services include complete unpacking and putting items away in their new homes.

“We had neither the manpower nor time to take on this emotional task. You made the process easy and pain free.” Beth, Northern Virginia
