Highest Level
of Safety C1D1
Certified

Key Equipment Features:

- Recovery from 50 to 400+ gallons per day
- Ethanol, isopropyl, pentane, hexane, heptane, and more
- No labor during operation
- Automatic programmable PLC control system
- Secure remote access and control
- Pneumatic tilting for easy vessel access and cleaning
- Venturi Vacuum for low temperature processing
- Dual container filling & collection
- 304 & 316 stainless steel
- Class I Div I Group D explosion proof & safety certified (Metlab)
- GMP designs available

PRODUCTION GUARANTEE

We offer production throughput guarantees based on your stream parameters and stand behind these values with a money back guarantee.

World Class Technology, Automation and Service

**Lifetime remote service at no extra cost.
Minimize downtime.**

We can seamlessly resolve problems you may encounter right from our office with our remote access PLC. With your permission, we will be able to access your system controls to assist with diagnostics & troubleshooting to minimize downtime. Your organization will also have the same secure remote operational capabilities.

UPTIME GUARANTEE

Our uptime guarantees utilize our secure remote troubleshooting technology and the ability to dispatch a technician within 24 hours if your equipment needs on-site service. A variety of service & spare parts packages are available to suit your specific needs.

About Maratek

Maratek is an award-winning industry leader in the solvent recycling and cannabis & hemp oil production industries. We strive for the highest safety and quality standards with all our equipment designated as Class 1 Division 1 certified, and UL listed using only **North American stainless steel, parts and labor.**

For over 50 years, Maratek has been engineering & manufacturing environmentally-friendly, high quality products that recycle solvents for the printing, coatings, automotive, aerospace, food, and paint industries.

Maratek can also provide world-class engineering services to integrate systems and provide closed loop cannabis/hemp oil production processes.
