PREMIUM HOSTED EMAIL

Keep your email, contacts and calendars
secure and accessible

ignite
YOUR BUSINESS. UNLIMITED.

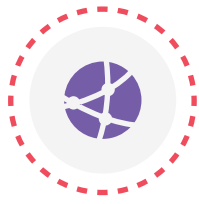

KEEP IN CONTACT WITH HOSTED PREMIUM EMAIL FROM IGNITE

Send and receive email and arrange meetings from wherever you are

With Hosted Premium Email, your email, contacts and calendar are hosted securely in a single location. Not only are they accessible from anywhere in the world whenever you need them, but you can also use your preferred device. This ensures that the lines of communication remain open, making it simple and safe to coordinate business processes and collaborate with colleagues when you're not in the office.

Hosted Premium Mail is brought to you by Synaq and hosted at Internet Solution's world-class data centres, backed by an industry-leading Service Level Agreement.

ORDER AND MANAGE ONLINE

Compare options, place orders and manage your account in one place

Choose the package that suits your requirements and budget on our online portal.

You must have an existing domain if you want to buy Hosted Premium Mail. If you don't have an existing domain, you can register for one through Ignite.

There is no set-up fee for any of the three Hosted Premium Email packages, and you can upgrade or downgrade your package at any time through Ignite's online portal.

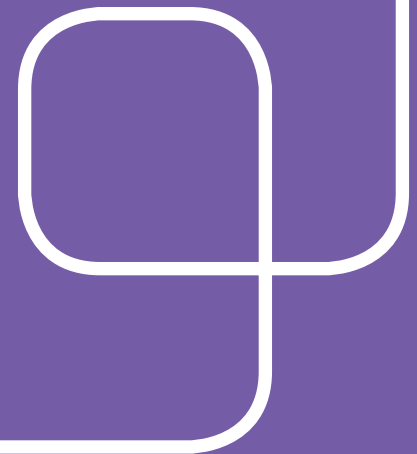

CHOOSE THE RIGHT PACKAGE FOR YOUR BUSINESS

Ignite offers a choice of solutions with several features

Pick a package that offers all the features you need, either Starter, for a very small business, or Enhanced or Premium for larger businesses.

Consider the roles of individuals in the company and the number of emails they receive as part of their daily business activities. For instance, a managing director is sure to receive very large volumes of email and will require adequate storage space.

ORDER AND INSTALLATION PROCESS

Getting started is so simple

- Choose the size of your package and the number of mailboxes you require.
- Sign up and make your payment.
- After your account has been activated, we will send you an email with your control panel details where you can create, remove and update mailboxes.
- You will need to determine if you require POP or IMAP support. POP mail lives on a device while IMAP lives on a server.
- Once your mail accounts are set up on your control panel, you can get going with Webmail or set up a mail client to connect to your mailbox via POP3 or IMAP.

TECHNICAL SPECS AND CONTRACT RULES

After all that... It's time to get you connected!

- Month-to-month billing.
- No set-up fee.
- Hosted Premium Mail is accessible via a web interface ensuring that you can access your email from anywhere.
- Hosted Premium Mail supports a wide range of email clients. Your choice of client may depend on personal preferences, as well as the functionality you require. Full collaboration functionality (e.g. shared calendars, contacts, global address list) is available via the Zimbra Desktop client, Microsoft Outlook with ZCO or Zimbra Webmail client. You can find more information on this in our FAQ.
