

Wieslab Request Form

Monitoring of biopharmaceuticals

Send to Wieslab AB , Lundavägen 151 212 24 Malmö, Sweden	Contact diagnostic.services@svarlifescience.com	T +46 (0)40 - 53 76 60 F +46 (0)40 - 43 28 90
Requesting doctor/ clinic - Postal address for test result report	Patient data (Full name, birth date, identity number)	
Invoice address (if other than report address) Only doctors, laboratories and hospital administration can be invoiced	Sample material Serum Collection date: _____	
Requesting Doctor (Name, Telephone, Email)	Specimen collection information The sample is preferably collected the same day as the next planned drug injection/infusion but before drug administration. Cmin is the minimal drug concentration at steady state and when the variations of drug levels in serum are the lowest. The levels of neutralising anti-drug antibodies are not accurately determined with these methods if sera contain detectable levels of drug. Take a venous or capillary blood sample in a tube without additive, let the sample clot for approximately 30 minutes and centrifuge it. Send serum by ordinary mail or on dry ice, please see the instructions after each sample number below for the correct transport condition. Cold packs are recommended for international transport of specimen that can be sent in "room temperature". If the sample cannot be sent immediately it should be stored cold (2-8°C) in a refrigerator for up to one week or freezer (-20 °C) until shipment. Send at least 3 ml serum. The healthcare provider submitting the sample(s) with this request form hereby confirms that the patient (or the patient's guardian or trustee, if applicable) has been informed that the samples may be retained by Wieslab AB for a period of up to 5 years for the purpose of conducting further analyses in order to make a diagnosis, and that Wieslab AB intends to retain samples for a period of up to 5 years for the purpose of the Svar Life Science AB/Wieslab AB's future development of analysis methods and its business activities. No, the patient does not give her/his consent to save the sample. The patient is currently unable to give his or her consent in relation to retention of the sample(s).	
Cost Center: _____		
Medical issue		
Date of last drug administration: _____		

Therapeutic Drug Monitoring (TDM) of TNF- α inhibitor

The sample is preferably collected the same day as the next planned drug injection/infusion but before drug administration (drug trough levels).
 For more information please see the specimen collection information above.

1) Select drug to analyze (serum - to be sent in [room temperature](#)):

123 **Remicade® (Infliximab)**

125 **Humira® (Adalimumab)**

131 **Cimzia® (Certolizumabpegol)**

127 **Enbrel® (Etanercept)**

129 **Simponi® (Golimumab)**

Biosimilar, Name: _____

2) Select what to analyze:

Drug concentration of TNF- α inhibitor

Drug concentration of TNF- α inhibitor including an analyze for neutralising antibodies (NAb) or anti-drug antibodies (ADA) depending on the result of the drug concentration
 (<0,65µg/ml - NAb and 0,65-10 µg/ml - ADA)

TDM of:	Drug concentration	Anti-drug antibodies (ADA) (Will only be performed when drug concentration/activity is low.)
Entyvio® (vedolizumab) (serum - to be sent in room temperature)	138	139
Mabthera® (rituximab) or a Biosimilar of rituximab (serum - to be sent cold (between coldpacks) Name : _____)	603	604
Stelara® (ustekinumab) (serum - to be sent cold (between coldpacks))	605	606
Roactemra® (tocilizumab) (serum - to be sent cold (between coldpacks))	607	608
Xolair® (omalizumab) (serum - to be sent cold (between coldpacks))	609	610
Opdivo® (nivolumab) (serum - to be sent cold (between coldpacks))	611	612

TDM - Drug concentration of:

613 **Soliris (eculizumab)** (serum - to be sent [cold](#) (between coldpacks))

614 **Herceptin (trastuzumab)** (serum - to be sent [cold](#) (between coldpacks))

615 **Orencia (abatacept)** (serum - to be sent [cold](#) (between coldpacks))

TDM - of anti-drug antibodies (ADA) against:

105 **Erythropoietin (EPO)** Name: _____ (serum - to be sent in [room temperature](#))

106 **Tysabri (Natalizumab)** (serum - to be sent [cold](#) (between coldpacks))

TDM - of neutralising anti-drug antibodies (NAb) against:

122 **IFN- β** Name: _____ (serum - to be sent in [room temperature](#))

Information about tests and sampling instructions is available at www.svarlifescience.com/services/wieslab-diagnostic-services

The latest version of the request forms are available on the website. For tests related to Autoimmune Diagnostics or Neuroimmunology please use respective request form.

Orders/Requests

Please send request forms: ___ Autoimmune Diagnostics ___ Neuroimmunology ___ Therapeutic Drug Monitoring
