

# LEAD BUYER

WANT TO BE PART OF MOVING LIFE SCIENCE FORWARD?

## ABOUT THE JOB

As a lead buyer within our organisation you will be responsible for supplier relationships, negotiations and continuous improvement when it comes to supplier management.

Together with the Operational Purchasers, the lead buyer is responsible for securing the correct products and services available for the whole organization of Svar Life Science AB - mainly Operations but also R&D and Wieslab AB (Bioanalytical and Diagnostic services). Focus will be on supply quality, delivery precision, cost effectiveness and optimized stock levels.

The Lead Buyer will have a tactical focus with some strategic influences. A process will be needed to start working with spend follow-up to work pro-actively with price follow-ups and to identify possibilities for improvements. This role also includes giving support to operational purchasing and involvement in improvement projects.

Responsibilities include, but are not limited to:

- Build and maintain good relations with suppliers
- Perform spend analysis
- Follow-up on supplier performance
- Negotiate with suppliers regarding pricing and delivery terms
- Approve suppliers and follow up through supplier evaluation
- Responsibility for the quality system with regards to purchasing
- Operational purchasing

**Location:** Malmö

**Reports to:** Supply Chain and Procurement Manager

**To apply:** Please send your CV and application letter to Roi Rekrytering

Apply as soon as possible as we are working continuously with the applications.

---

## ABOUT YOU

You have a M.Sc. in Engineering or Business and at least five years of business experience from strategic purchasing preferably from a life science company or manufacturing company. You must be familiar with the process from purchase to pay, use of ERP-systems and have a solid understanding of financial reports. If you have experience of working in FDA regulated industries and experience from IVD /Medical device/ food industry or other related operation it is a plus.

You are a business-oriented colleague with a professional attitude who always combine good communication skills with a strategic mind set. You are a curious and an open-minded team-player with change management skills and have a good understanding of the interaction between processes, organization, culture and technology in the whole value chain.

You are used to work independently and structured, focusing on driving the business forward. It is important to have good "people skills" and to enjoy building relationships both within and outside the organization. We expect excellent communication skills in both English and Swedish and if you have worked in a fast-paced environment in the past, and you enjoy building something from the ground, we're excited to talk with you.

## ABOUT US

Svar Life Science is a Swedish company that works to enable personalized medicine by serving the global life science market with tools for drug development and companion diagnostic solutions.

We deliver answers you can trust from discovery to diagnosis - our combination of high-quality products, innovative technologies and comprehensive laboratory services are used by our customers to discover new therapeutics, diagnose patients and treat diseases.

You can be sure of our answers: we've been working right across the clinical diagnostic value chain for more than 30 years.
