

Wish List

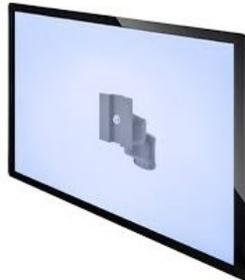

Boessling Village Apartments offers 24 affordable independent senior living apartments for persons 62 years of age or better. These tenants must meet the income requirements prescribed by the Department of Housing and Urban Development (HUD). While basic items throughout the building are supplemented by HUD, there are many upgrades and improvements that do not fit within the budget's criteria. Boessling relies on charitable support to meet those extended needs, including all of our spiritual care. Below are several ways you can help inspire hope and ensure our mission continue as a place where The Care of the Soul is the Soul of Care.

WALL-MOUNTED MONITOR

\$1,000

We strive to keep communication open with our residents. This monitor would make it possible to greet our guests as well as inform our residents and guests of events going on throughout the facility and in the community.

WINGBACK ACCENT CHAIRS (10)

\$500-\$700/each

We are thrilled Boessling has several small and large common areas where tenants and their guests can gather to visit, read, play games and put together puzzles. Because furniture in these areas is well used, the upholstery is worn. Help us recover or replace 8 to 10 of these chairs with a material that can withstand more use.

ENTRYWAY PAINT (4)

\$850-\$1,000/each

First impressions make a difference! Boessling has tenants, visitors and prospective tenants passing through our doors every day. Our entryways are tired from being bumped by deliveries, groceries, walkers, wheelchairs and the like. We would like to provide a facelift for each of the four entrances with a coat of paint to make them look new again.

BATHROOM PAINT (2)

\$200/each

Our public bathrooms are directly across from our community room and are used by visitors and tenants. We have collected artwork, shelves and other accents for a more welcoming touch, but the current paint is worn. Help us make a better first impression with fresh paint.

LAUNDRY ROOM \$800-\$1,000

The laundry room is well used by all the tenants and could use an update with a splash of color.
