

# Cyber Security & Network Systems

## PROGRAM DESCRIPTION

### Cybersecurity & Network Systems Program

Students in the Cybersecurity and Network Systems Program will be exposed to reality-based situations and projects assisted by experienced faculty members. The program will prepare students to be technically proficient in both operating systems and networking technologies by practicing specific disciplines and responsibilities that occur in real companies. The courses needed for the cybersecurity program are sequential in order to attain skills and experience needed for the challenging field.

## PROGRAM PARTNERSHIPS

To help students attain the above skills, Hocking College has partnered with Cisco Networking Academy. The Cisco Networking Academy is highly regarded for its hands-on learning approach to the IT field, and provides a curriculum based on the current trends in the industry and the skills required for IT specialists.

## ARTICULATION AGREEMENTS

Students enrolled in the Cybersecurity & Network Systems Program can get their bachelor's degree courtesy of Hocking College's new '3+1' partnership with Franklin University. Students who successfully graduate from Hocking College's Cybersecurity & Network Systems Program can then transfer to Franklin University to complete their Bachelor of Science – Cybersecurity degree completely online.
