

Water & Wastewater Management

PROGRAM DESCRIPTION

Water & Wastewater Management Program

The Water & Wastewater Management Program will prepare students to become Water and Wastewaster Operators while also providing online continuing educational opportunities for current operators. Students in the program will:

- Calculate water/wastewater flow rates, storage, detention times, volumes, hydraulics, chemical dosages, and electrical applications.
- Examine and compare federal and state laws and regulation that are applicable to the water/wastewater industry.
- Assess and apply health, safety, emergency planning, and security practices and procedures to evaluate specific working environments within the water/wastewater treatment fields.
- Demonstrate skill in water/wastewater sampling and analysis techniques.
- Analyze and evaluate a variety of water/wastewater treatment processes as well as applicable operation, maintenance, and laboratory procedures.
- · Explain a variety of distribution and collection system designs, operations and maintenance.
- Apply the scientific principles behind water resources management to the design of water/wastewater treatment strategies.

The average salary for a Water and Wastewater Operator is \$45,000 - 65,000.

Hocking College alumni work in water and wastewater treatment plants in the City of Dayton, City of Springfield, Clermont County, Northeast Ohio Regional Sewer District.

ALL-INCLUSIVE PRICING

Hocking College offers all-inclusive pricing and works with students to assure they have complete college funding, including financial aid, before they start classes. All-inclusive pricing includes the following:

PER SEMESTER OPTIONAL

\$300.....Learning Fee \$53.....Parking \$20......Health Center Services \$275....Smart Start*

\$75......Career Center Services *Recommended for all first-year college students

Pricing for housing and meal plans can be found at hocking.edu/residence-halls.

DEGREE TRACK

The listed degree track is for students beginning classes in May 2022 who will pursue an Associate of Technical Study in Water & Wastewater Management.
