

Construction Management: Commercial & Residential Electricity

PROGRAM DESCRIPTION

Commercial and Residential Electricity Degree Program

The Construction Management: Commercial and Residential Electricity program is offered exclusively at the Hocking College Sylvania Educational Site in Nelsonville, Ohio.

The electrical Construction Management program responds to the growing need for individuals trained in commercial and residential electricity management and skilled craftwork. Electricity construction managers are involved in the planning, estimating, scheduling, and execution of a variety of commercial and residential projects. Opportunities also exist for those who aspire to manage their own businesses as independent electrical contractors.

Prior work experience and/or completion of electrical management apprenticeship programs may result in credit hours being awarded by advanced standing, portfolio, and exam assessment.

Hocking College has established partnerships with industry employers.

PLACES OF EMPLOYMENT

Examples of places where Hocking College alumni have worked or are currently working include the following:

Claypool Electric • Romanoff Group
