

Construction Management: Commercial & Residential Electricity

PROGRAM DESCRIPTION

Commercial and Residential Electricity Degree Program

The Construction Management: Commercial and Residential Electricity program is offered exclusively at the Hocking College Sylvania Educational Site in Nelsonville, Ohio.

The electrical Construction Management program responds to the growing need for individuals trained in commercial and residential electricity management and skilled craftwork. Electricity construction managers are involved in the planning, estimating, scheduling, and execution of a variety of commercial and residential projects. Opportunities also exist for those who aspire to manage their own businesses as independent electrical contractors.

Prior work experience and/or completion of electrical management apprenticeship programs may result in credit hours being awarded by advanced standing, portfolio, and exam assessment.

Hocking College has established partnerships with industry employers.

Examples of places where Hocking College alumni have worked or are currently working include the following:

Claypool Electric • Romanoff Group

ALL-INCLUSIVE PRICING

Hocking College offers all-inclusive pricing and works with students to assure they have complete college funding, including financial aid, before they start classes. All-inclusive pricing includes the following:

PER SEMESTER

\$300.....Learning Fee

\$20......Health Center Services

\$75......Career Center Services

OPTIONAL

\$53.....Parking \$275....Smart Start*

*Recommended for all first-year college students

Pricing for housing and meal plans can be found at hocking.edu/residence-halls.

DEGREE TRACK

The listed degree track is for students beginning classes in May 2022 who will pursue an Associate of Technical Study in Construction Management: Commercial & Residental Electricity.
