ENPHASE LOGO (primary)

The Enphase Logo is the corporate signature. This signature is made up of two elements, the Enphase logotype and the Enphase symbol. It signifies access to anything that is Enphase, indicating ownership and conveying Enphase corporate endorsement. The logo has been trademarked. Please ensure that you use the logo with its registered trademark symbol.

ENPHASE ORANGE
COATED: PMS 166C
UNCOATED: PMS 1665U
CMYK 0C 68M 100Y 0K
RGB 243 115 33
HEX #F37321

ENPHASE DARK GRAY
COATED: PMS 425C
UNCOATED: PMS 425U
RGB 95 96 98
HEX #5F6062
CMYK 0C 0M 0Y 77K

COLOR

Whenever possible, the Enphase Logo should appear in its primary colors, with the symbol in orange and the logotype in dark gray. These colors are used when the logo appears on a white background. If the logo is to be used on a colored background, the logo should be made white.

When necessary, the logo may be made all black, all white, all dark gray or all orange.

IV. CLEAR SPACE

The Enphase Logo should be displayed in a manner that gives it prominence, establishes its form, and provides legibility. The minimum clear space around the logo should be the height of the capital "E".

ENPHASE LOGO GUIDELINES

ENPHASE LOGO (stacked)

The Enphase Logo is sometimes used in a stacked formation. In this treatment, the Enphase symbol is significantly emphasized. It should be used in markets where the Enphase name is already well-known or where space demands a more vertical logo treatment. Please ensure that registered trademark symbol is clearly legible when using this logo alternative.

AUTHORIZED LOGO VARIATIONS

Without exception, the Enphase logo may only appear in the corporate colors and black, white, Enphase orange or Enphase dark gray. The Enphase logo elements may not be resized or separated, with the exception of adjustment of the trademark symbol. Effects such as dropshadows are also not authorized.

UNAUTHORIZED LOGO VARIATIONS

CLEAR SPACE (stacked logo)

The minimum clear space around the logo should be the height of the capital "E".

FILE FORMATS

The Enphase Logo is gathered into folders for PRINT and SCREEN usage. SCREEN usage files (PNG) are suited for implementation online and in presentations (PowerPoint, Keynote). PRINT usage files (EPS) are vector artwork suited for uses such as print, embroidery, or animation.

Note that the trademark symbol may need to be sized up or down depending on final output.
