

AUTOMATED CHARGE REVIEW

Make Revenue Cycle Management More Powerful & Efficient

Embrace the power of Automated Charge Review. RCxRules combines custom and industry-standard rules with automation to review and correct charge data from your EMR before passing it to your PM System. As a result, your organization will:

REDUCE OPERATING COSTS: Automating the charge review process minimizes manual effort while increasing team productivity.

> *A 75-physician group in Texas reduced work associated with EMR charge review by 50%.*

CAPTURE MISSED REVENUE: CPT and Dx/HCC codes are automatically reviewed for accuracy to ensure full reimbursement.

> *A large customer in Connecticut captured over \$15,000 per month in previously lost revenue by appropriately identifying missing CPT codes.*

ACCELERATE INSURANCE PAYMENTS: Auto-correcting charges pre-claim reduces denial rates and leads to faster processing of insurance payments.

> *A 61-physician group in Maryland accelerated insurance payments received within 30 days by 19%.*
