

Smart Meetings

The way we meet is evolving and reflects changing attitudes towards collaboration in the workplace. Nowadays we want to engage and meet in flexible and dynamic ways. Advancements in technology has allowed us to examine the current approaches to the way we conduct meetings. Meetings nowadays have become much more collaborative and no longer happen in one place.

Employees now have higher expectations when it comes to collaborating in the workplace. They want to work smarter and faster with an integrated set of collaboration tools and applications. However, the reality is that visual collaboration solutions have traditionally existed in silos with varied standards, limited interoperability and a disparate user experience.

Smart Meetings enable a new era in visual communications and helps collaboration technology evolve.

Smart Meetings is our cloud collaboration solution that enables a high-quality video experience across devices and technologies.

Smart Meetings enable seamless and productive video meetings from anywhere - making it easy for remote, distributed or virtual teams to collaborate whether they are in the office, at home or on travel.

Smart Meetings eliminate any technology barriers and enables any-to-any connectivity across vendors, platforms, standards and devices.

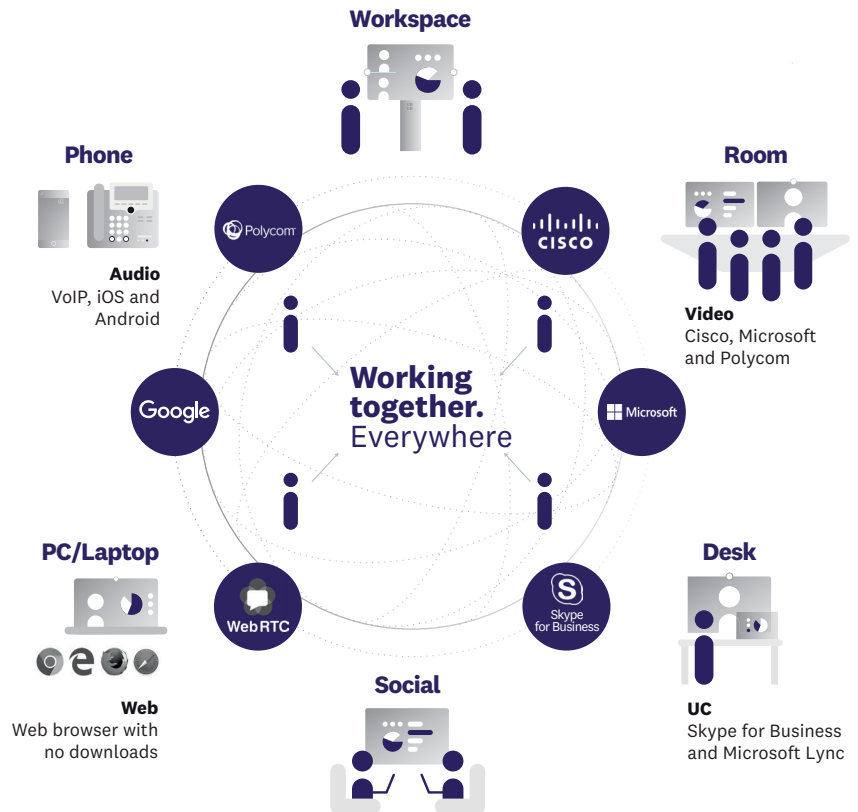

Smart Meetings bring people together in secure meeting spaces - encouraging teamwork, driving performance and improving productivity. Smart Meetings empower employees and improves the meeting experience.

Smart Meetings

Smart Meetings provide a secure, reliable and inviting meeting experience - enabling teams to work together, everywhere.

We need to make it easier for people to come together. We need one place where everyone can meet - where our physical and digital workspaces create a seamless meeting experience.

Smart Meetings provide one place, where people can truly work together in a seamless and reliable way.

Meeting Spaces

Personal Spaces is your personal meeting space for professional video meetings. Team Spaces is a dedicated meeting space for teams, projects or departments.

Events

Events allow you to record and stream live video events and create on-demand content, including webinars, training sessions and organization-wide video meetings from Personal or Team Spaces.

Device Subscriptions

Device Subscriptions are subscription plans for all types of room and desk devices. Get unlimited video calling on a dedicated global network.

Meeting Access

Smart Meeting Access provides any-to-any connectivity and is fully interoperable with Skype for Business and Google Hangouts Meet.

Meeting Assistant

Meeting Assistant is a mobile app that makes it easy to schedule, join, invite and manage your video meetings.

Smart Meetings transform the way teams visually collaborate in the physical and digital workplace.

Working together.
Everywhere
