

ArcGIS Enterprise in the Cloud

Hosted and Managed Strategies

What Is The Cloud?

- Solutions and Template
- Data Storage
- Network of Secure Servers
- Data & Map Services

Why Use The Cloud?

- Flexibility (bandwidth & server capacity)
- Disaster Recovery (geographic redundancy)
- Automatic Updates (software, security patches)
- Capital-expenditure (pay as you go)
- Increased Collaboration (anytime, anywhere)
- Work from Anywhere (internet, mobile apps)
- Free of Infrastructure (space, power, hardware)
