History:

- GISinc has been developing enterprise integrations for 28 years
- Founded on Esri integrations with 3rd party systems of all shapes and sizes
- Only company to achieve both Esri and Cityworks Platinum Partnerships

Approach:

- We bring a holistic perspective, considerate of cost and return
- Recognize the balance of functionality and administrative overhead
- Collaborative with client, vendor, and GISinc development staff

Implementation Services

- Installation & Configuration (ArcGIS & Cityworks)
- System Administration
- Software Version Upgrades
- Database Management
- System Integrations
- Cityworks Customization and Development

Key Features

- APIs
- Citizen Request Management
- Inspections and Work Orders
- Mobile
