

## Solutions

### GIS Healthcheck®

#### Overview

A GIS Healthcheck identifies short, mid, and long-term solutions that provide value for your stakeholders. If you need a roadmap, are asked to do more with less, need quick wins to build momentum, or have plateaued with GIS, we can give you a hand with a GIS Healthcheck.

#### What You Get with a GIS Healthcheck

**Onsite Visit** - Two days of onsite interviews with your GIS stakeholders

**Technical Diagnostic** - We carefully examine and analyze your organization's existing GIS infrastructure

**Business Utilization Assessment** - We gather information and assess how your GIS infrastructure is performing within your organization

**GIS Healthcheck Report** - A final diagnosis of your GIS is presented, with delivery of hard and digital copies to keep for your records

**2 days** of onsite interviews

**completed** pre-visit questionnaire

**sample GIS data** on CD/DVD for us to take
