ONLINE MEDIA CENTER

The customer is one of the longest running women's professional sports associations in the world. Founded in 1950, the organization has grown from its roots as a playing tour into a non-profit organization involved in every facet of golf. Their headquarters are in Daytona Beach, Florida.

Website portal is built using LogiAnalytics tool. Logi Info is used to display statistics of players & tournaments.

Latest news and events, including social media integration

Ability to quickly view reports and statistics and navigate reports intuitively

Media have access to information real time for current tournaments

BENEFITS

Benefits include improving processes. Media relations, fans and employees each have improved access to stats, tournaments, social media and news updates.

We are a small shop with limited IT resources. They have the right mix of talent at affordable rates to elevate my IT team output to exceptional levels. Today's work occurs over multiple locations, whether it is in different office locations, separate departments or at your home office. SharePoint enables teams and individuals to connect and collaborate together regardless of where they are located."

Jack Sumner, CIO

NON-PROFIT RESULTS

The BairFind Foundation is a 501(c)(3) non-profit organization with the goal of getting the public involved in the search for missing children. We do this by attaining high profile and long-term visibility of missing children's profiles and spreading awareness about the problem of missing children today and how the public can get involved in the solution.

Documents stored in one place.
Access easier for users
irrespective of their work
locations.

Stable and reliable system
tasks that took 2-3 days to
complete was achieved in
minutes

Reduced IT support, mainte-
nance costs

“

The BairFind Foundation was built on the simple philosophy that ‘more eyes looking means more children found’. I have chosen to recommend Dock because I feel like it is the right thing to do. When somebody creates, when somebody creates a product like Dock that solves so many of our issues and makes what we do as a non-profit so much easier for us to do we feel like we want to tell others that you can be using this too.

Dennis Bair, BairFind Foundation

KNOWLEDGE BASE SOLUTION

CUSTOMER MEMBERSHIP, CLAIM ADJUSTMENT AND COMMISSION PROCESSING APPLICATION

The mission of our customer, as the single, unified voice of business, is to enhance the quality of life for all South Carolinians. Our customer leads the way in achieving global competitiveness and ultimately increasing prosperity for our citizens by creating a shared, collaborative vision for South Carolina. Increasing productivity through an educated and highly-skilled, capable workforce. Advocating a balanced, predictable tax and spending system. Fostering a favorable climate among our members and their diverse employees. As well as promoting the positive impact of a successful business community on citizens.

Efficient time keeping feature

Links and resources under
my chamber integrated with
SharePoint

Dedicated payroll self service
center

Easier content management

“

The key thing brought to the table was the development of the web interaction to external users and along with that the ability to disseminate and receive content from external users, which have transformed how we do business. The beauty is that the system Global provided has the ability of external users to participate in a workflow process.

Randy Bradly, Vice President
