

Motorcycle Parking

By: Brent Frueh, General Manager

We get asked the question why do we have so many motorcycle parking spots? Although the Rochester Athletic Club puts parking blocks out close to the motorcycle parking, the actual motorcycle parking spots are on the concrete pad and not the entire blocked off area. The concrete pad is there to prevent the motorcycles kick stand from sinking into the blacktop. We barricade all of this off for the safety of our members and guests. This area serves as an entrance exit for parents with young children to the outdoor desk entrance to the pool. To keep drivers line of site clear, we put barricades up so no cars park in this area. The spots are barricaded for the summer and once the gate is closed for the season, those spots are opened back up for cars to park.
