Scanco Mobility App for Sage 100/100c
Mobility Module

Scanco Mobility for the Sage Mobility Module is a significant leap forward in mobile automation for Sage 100 and 100c users.

Automate your cycle counting and year-end physical count from any iOS or Android device. The application seamlessly integrates into Sage 100/100c eliminating the need for paper counting and data entry. With countless hardware accessory options, users can scan barcodes, look up items, and send counts real time into Sage 100/100c. Increase counting speed by 75% and eliminate human error with Scanco Mobility.

Key Features

- Native iOS & Android Application
- 5 User Licenses are included free with the Sage Mobility Module
- Additional User Licenses Available & Uncapped
- Physical Inventory Counts

- Cycle Counting
- View Inventory Pictures
- Quick Count Review
- Operates on Wi-Fi or Cellular
- Online and Offline Mode
- Freeze Items on the fly

Sage 100/100c Mobility Module

Whats NEW in Sage Mobility?

- Mobility Module Setup
- Mobility Options
- EZ Import Applications

- EZ Import Inquiry
- EZ Import Rejections
- EZ Import Reporting

Mobility Module Setup Wizard

NEW for Sage 100 and 100c 2018 versions, the Mobility Module is now accessible and can be installed via the Sage Landing page using the new Install Wizard. Installing the Mobility Module is now easier than ever. Select the Mobility Module from the Sage Module list and follow the install instructions from the built-in installer.
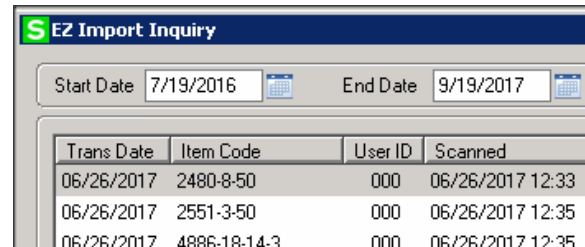

EZ Import Applications

Four NEW user interfaces to import data collected on mobile devices. The new applications show all data imported by type. Example: Data for Physical count and Issues would be shown independently.

- Inventory EZ Import: For Physical count, Card Count, Receipts, Issues, Adjustments, Alias entry, Job Issues.
- Sales Order EZ Import: For Invoice Data Entry and Shipping Data Entry.
- Purchase Order EZ Import: For Receipt of Goods
- Bill of Materials EZ Import: For Production Entry

EZ Import Inquiry

NEW user interface to see all data imported by type within a range of dates. Printing is included for easy reporting.

EZ Import Rejections

NEW User interface that shows detailed information in grid view and allows for easy correction and importing.

EZ Import Reporting

Reports for all data collected on mobile devices.

- EZ Import Report: For all records currently in process.
- EZ Import History Report: For all records processed
- EZ Import Report: For all records currently rejected due to discrepancies.
