

Tridant is a Proud Partner of Adaptive Insights.

Tridant helps clients leverage their data assets to improve performance, increase revenue, reduce risk, and make businesses more responsive to market opportunities and threats. Our solutions are tightly integrated with key processes and source systems, which help our clients to make the most of their investments in data, technology and people.

TRIDANT
data driving decision making

As a certified Adaptive Insights partner, **Tridant** delivers unified planning, reporting, consolidation and analytics solutions for organisations ranging from small and mid-sized companies to enterprise class corporations.

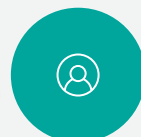

50-90% Reduction

In time spent budgeting, planning, consolidation, reporting and analytics.

3,500+ Customers

Worldwide

150+ Clients

In Australia & New Zealand

75%+ Increase

In cost-efficiency compared to on-premise solutions.

"Tridant stands out for its leadership in the design and implementation of technology solutions optimised for planning, reporting and analytics."

—**Simone Bender**, Vice President, Worldwide Channels - Adaptive Insights.

Tridant is an award-winning specialist Business Analytics consulting firm focused on implementing performance management solutions and analytics in Australia and Singapore. Our clients benefit from Tridant's expertise across system and process analytics, solution choice, implementation, training and support.

Adaptive Planning

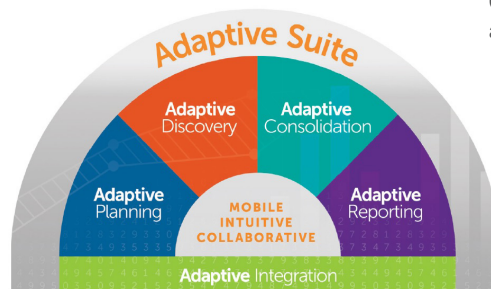

Comprehensive budgeting, planning and forecasting - proven to reduce cycle times by up to 90%. With an intuitive "Excel-like" interface, it's easy to collaboratively plan and forecast revenue, expenses and headcount, create rolling forecasts, and more.

Adaptive Discovery

Visually uncover insights into financial, sales, and operational performance. Intuitive dashboards, interactive scorecards, and even what-if modeling - analyze results and trends.

Adaptive Integration

With a powerful integration platform that connects on-premise and cloud investments to the suite, Adaptive Integration provides a comprehensive range of connectors to leading ERP, CRM, and proprietary and data warehouse sources. - turn data to insight.

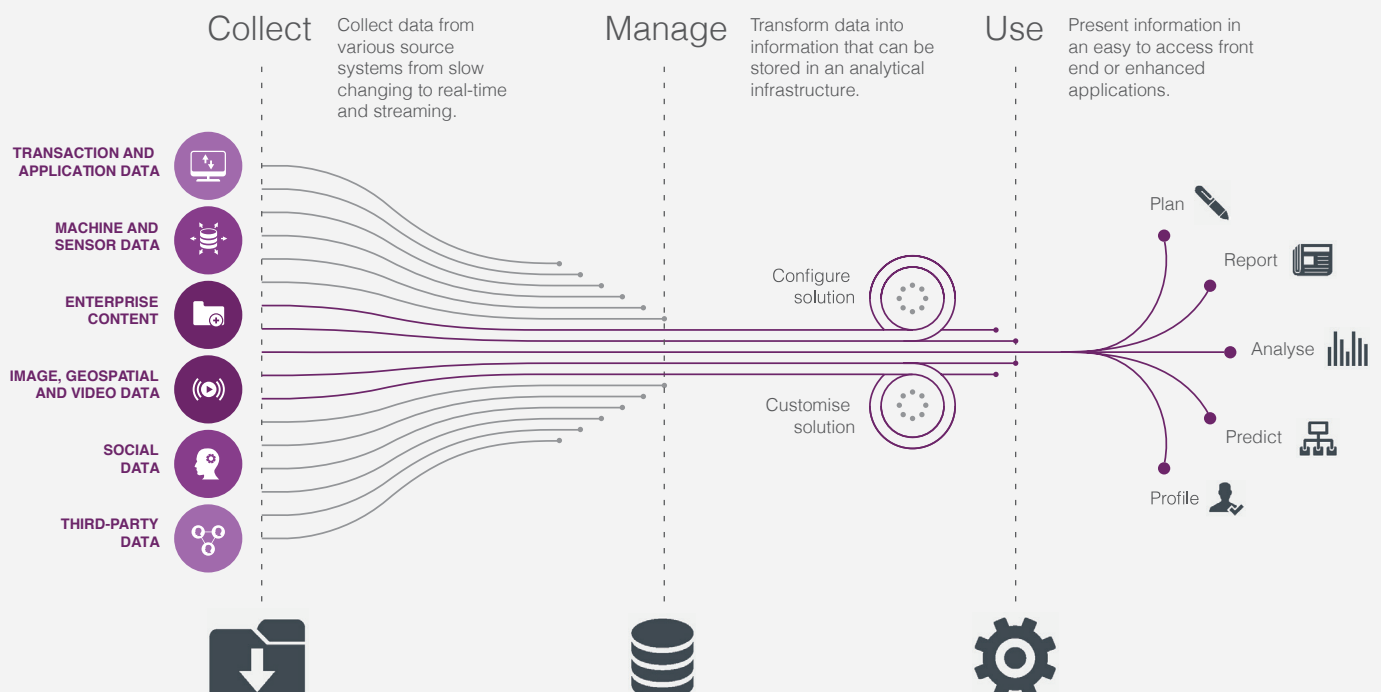

Adaptive Reporting

Comprehensive financial, management, board and transactional reporting, all available through a drag-and-drop report builder - self-service reporting for everyone.

Adaptive Consolidation

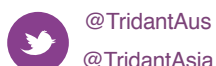

Cut time and resources spent closing and reporting. With a real-time consolidation engine at the core, it includes journal entry management, intercompany eliminations, account reclassifications, and even collaborative close process management - all as an easy to deploy cloud service.
