

Comprehensive Trade Management System that Unifies Sales and Marketing

See more, measure more, and improve more across your organization in real-time with Promomash.

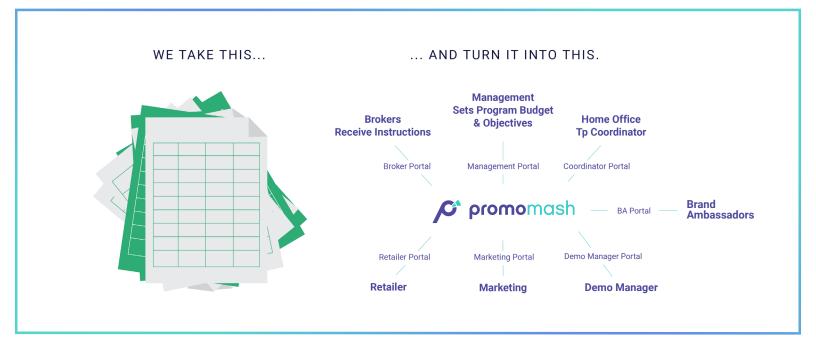

For years, execs at emerging and growing CPG brands have wished for the ability to easily see what's going on across their entire sales, marketing, and trade promotion organization. They've had to settle for data that's not sufficiently detailed, is manually compiled, and provided well after the fact.

This, in turn, makes it nearly impossible to continuously improve team performance and productivity.

If you're that executive – you no longer need to settle.

Promomash is a complete system of software, services, and insights that dramatically improve the process of going to market:

- Bandle all sales, marketing and trade promotion both from HQ and the field
- **11** Empower your entire team to be more productive
- Leverage built-in industry standard processes
- Capture all costs, sales, and activity data to provide unprecedented visibility into customers, personnel, and products
- Provide your team an easy, intuitive user experience whether working from the office or the field
- Enable streamlined/assisted data gathering
- Set up closed-loop planning, executing, and analysis

Photos

Promomash's photo database facilitates immediate collection of photos for proof of attendance or execution. The photo gallery environments make for easy browsing and curation of photos, and help managers to see trends, assemble stories for corporate, and promote via social media.

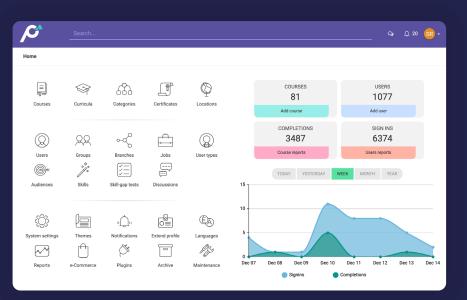

Analysis

The data is the whole point. Promomash provides a rich set of default analytics, and the ability to export in universal formats for any other analytical tool.

Deduction Management

Online Training

Settlements / Deduction Management

Deductions are costly to your bottom line – one of the most tedious tasks for the team to deal with. Promomash makes it a breeze. We digitize all those ugly customer pdf invoices down to the line-item level, track your authorizations, reconcile it all, and can even go back to the customer to recover invalid deductions. Our DM Dashboard makes it all clearer than ever, and even gives you insights into areas for business improvement.

Online Training and Certification

Promomash's Learning Center is a full-featured online university, enabling our clients to cost-effectively onboard new employees and team members, roll out new products, policies, and other information to the team, and even provide training and support for retail staff.

Why Promomash?

Unlike all other TPM and field marketing software products to date, Promomash is not just a big box of dashboards and numbers based on past activity. Promomash seamlessly integrates that box with **workflow management features** that will help your people to produce better numbers and progressively improve performance over time.

- Increase your staff's time efficiency by 2-3X on trade promotion activities, freeing them up for other value adding activities. This alone pays for the cost of Promomash many times over.
- **Empower sales to increase the number and quality of deals** brought in for approval.
- **Provide an accountability structure** that encourages brand ambassadors to increase their sales and the number of new consumers they create. Our clients have demonstrated first-year profit increases of 5-25% in this area alone.

In summary, Promomash **demolishes organizational silos** and empowers you, the executive, to gain the real-time, granular visibility you need to confidently make important decisions that will affect your brand's growth and success. No other solution gives you the same power to improve your organization and results.

Connect With Us to Learn More

Promomash doesn't just document the symptoms – we help you address the causes. Gain significant competitive advantage through visibility, accountability, efficiency, and insights. Let's talk and explore whether Promomash is right for your brand.
