

Complete Payroll and Tax Management

If you're like most employers, processing payroll is one of your heaviest administrative burdens. But our full-service payroll and tax filing solutions can cut your workload in half.

Say Goodbye to Payroll Headaches and Hassles

Imagine, your entire payroll process executed quickly and accurately, from payroll submission... to fund distribution... to W-2 processing and beyond. That's the power of our payroll software and state-of-the-art tax engine.

No Payroll Requirement Is Too Complex

So you manage a complex labor environment? That's our specialty. Our system can manage multiple FEINs, complex pay rules, blended overtime, union dues, and more. Plus, there are no limits on the number of earnings, deductions, pay rates or distributions you can apply.

Tax Compliance That's Far from Taxing

In addition to managing multiple FEINs, our payroll system calculates employee taxes across all states and local jurisdictions—even when your employees work in multiple states. And because EPAY HCM delivers all federal, state, and local tax updates automatically, you won't need a third-party tax service.

Why EPAY?

Automatic Payroll Processing

Automate payroll deductions, gross-to-net calculations, and more—no more duplicate data entry.

Superior Payroll & Tax Accuracy

Ensure accurate tax calculations and W-2s, timely filings, and federal, state, and local compliance.

Total Garnishment and Levy Compliance

Stop sweating garnishments! We can handle everything for you, including factoring in all statutes, sequencing deductions and delivering child support payments electronically.

Complete Reporting Capabilities

Easily run reports including payroll summary, employee vouchers, payroll/gross-to-net register reports, and check journal reports, gaining instant visibility into your payroll dollars.

Easy Employee Self Service

Provide real-time self-service access, allowing employees to manage their data anytime, from any device.

Seamless Integration with General Ledger

Export payroll data to your General Ledger with ease! EPAY's payroll technology integrates seamlessly with your ERP and financial/accounting systems.

Payroll and Tax Highlights

- Set up recurring earnings and deductions
- View gross-to-net pay and make adjustments in real time
- Serve up appropriate tax forms for new hires based on zip code
- Calculate adjustments/one-off deductions for retroactive benefits, garnishments, and taxes
- Produce on demand checks with automatic updates to earnings, deductions, and tax balances
- Issue off-cycle checks or void payments instantly
- Distribute payroll funds via EPAY's free pay cards
- Configure pay statements for specific compliance requirements
- Pay earning premiums for all worked hours
- Restrict earnings codes by group for special earnings groups
- Restrict access by group or department
- Manage multiple state unemployment rates
- Create/print electronic W-2 and 1099 forms
