

WalTer T11 Biometric Time Clock

A HIGHLY ADVANCED BIOMETRIC TIME CLOCK...AT A HIGHLY AFFORDABLE PRICE

With WalTer™ T11, down-to-the-minute time tracking is just the beginning. Our biometric time clock makes time fraud obsolete while doubling as an employee self-service kiosk and manager messaging system.

WalTer T11 works in tandem with our cloud-based system, Blueforce™, to automate the time and attendance process, giving you real-time visibility into your workforce.

Reduce Labor Costs

WalTer T11 reduces payroll inflation by eliminating data entry errors and time rounding. Precise fingerprint recognition technology identifies and validates an employee's true identity to prevent buddy punching, a costly form of time theft.

Improve Workforce Productivity

WalTer T11 makes it easy to manage and communicate with employees from afar. Self-service features allow employees to access time sheets, pay history and schedules, and request PTO right from the clock. Managers can save time by delivering group or individual messages to employees when they clock in and out.

Guard Against False Claims

An optional safeguard built into the WalTer T11 clock-out procedure provides protection against fraudulent Workers' Comp claims. At the end of a shift, employees answer a "safe workday" question. If a questionable claim is filed at a future date, employers can validate the claim's credibility with the employee's dated "safe workday" confirmation.

T11 SPECS

Network/Communication

- Wi-Fi
- LAN (Ethernet)
- Cellular (GPRS or CDMA Modems)
- Dial-up (Analog Modem)

External I/O

- 7" TTL LCD Display
 - SecuGen Fingerprint Scanner
 - 4x4 Keypad
 - USB 2.0 Ports (2)
 - 3.5mm Jack & 2W Speaker
 - Power Adapter with Locking Power Jack
- Input: AC100~240V, 47~63Hz
Output: DC 19V/3.92A
100% RoHS compliant
WEEE

Mechanical Dimensions

80 x 260 x 262 mm
(3.15" x 10.24" x 10.31")

Custom Motherboard

- CPU: AMD LX800
- System Chipset: CS5536
- I/O Chipset: Winbond W83627HG-AW
- Memory: DDR400 512MB RAM
1GB DOM Storage

- **Plug and play, configured to meet your needs—no IT required!**
- **Built to withstand harsh environments**
- **Multilingual: English, Spanish, Polish & French language options**
- **Free tech support 24/7**
- **Free maintenance & upgrades***

*1 year warranty on purchase or full life of lease.
