

*For your convenience and safety, CareATC is now offering*

# Virtual Visits

8am-8pm, <sup>EST</sup>  
7 days a week

To schedule a virtual visit with a CareATC medical provider, simply call

**800.993.8244**

Virtual visits are available via telephone or an online face-to-face visit via ZOOM, depending on availability. Virtual visits can cover most medical conditions, including everyday sick visits, well visits, follow-ups, medication reviews, etc. – and of course, possible exposure or symptoms related to COVID-19. During your virtual visit, you and your provider can discuss any needed referral services or medication order/fulfillment options.

Additionally, CareATC has established a COVID-19 Resource Center at: [careatc.com/covid-19](https://careatc.com/covid-19) which includes up-to-date information on COVID-19 as well as assisting individuals who may have been exposed with a screening tool to determine self-isolation needs and direction to a CareATC provider. Visit this site regularly for updates and links to authoritative websites, frequently asked questions/answers, and more.
