

# Milk Info &

# Compliance

**Executive Summary:** We'll get you started with milk based on the numbers you provided, but if anything needs to change, please let us know so we can modify your order.

## Milk

For partners receiving milk, we will send milk according to the number of students provided at the start of meal service. There are lots of options with milk, and we're here to help find the "Goldilocks" amount to send!

### Types of Milk:

Whole

1%

Skim

**Substitute Milk:** For students with a dairy intolerance, we also offer **Soy Milk** and **Lactaid**.

\*Please note that these are only available in Quarts. Disposable supplies at no additional cost.

**Size Options:** Milk is available in **Quart** and **Half-Pint** containers.

Half-pints are individually packaged and come in a case of 70.

**CACFP:** If you receive reimbursements from CACFP, please note:

Children **under two** must be served whole milk.

Children **over two** require skim milk or 1% milk.

The serving size for children ages 1–5 is ½ cup, or 4 ounces.

**NSLP:** If you receive reimbursements from NSLP, please note that two types of milk must be available, and that no whole milk can be served. The serving size for children grades K–12 is 1 cup, or 8 oz.

**We want to help find the "Goldilocks" amount of milk — but we'll need your help.** We appreciate you partnering with us to monitor how much you are using each week, until we can find an amount to regularly send that is "just right." On Fridays, please review how much milk is in your fridge, and if it will expire before the weekend is over.

**If ever you feel like you're swimming in milk or eating yogurt with forks — please contact us at [help@myredrabbit.com](mailto:help@myredrabbit.com).**
